

Hg5[®] Series of Amalgam Separators

We've got amalgam separation down to a science. Removing mercury from the dental practice (and the environment) is a good thing - and we're way ahead of the game. When it comes to Amalgam Separation, no one knows more than Solmetex. 21 years ago, our experience in water science led us to create a system that easily and affordably removes amalgam waste from dental practices. Our signature product the Hg5 is the industry standard and has won more awards than all competitors combined. As a 'total solution provider,' Solmetex takes care of waste handling and recycling so you don't have to. Good for you and good for the environment. Solmetex – clearly the leader in amalgam separation

Solmetex provides the complete solution:

- ISO 11143 certified at greater than 99%
- Professionally engineered, robust, simple design.
- Easy to operate and maintenance free.
- Flexible design for hard-to-fit applications.
- Functional for wet or dry vacuum systems (install before pump on wet vacuum system, install before tank on dry vacuum system).
