CASE STUDY

The Artistic Composite Kit features a selection of Shofu's finest diamonds, carbides and stones. The instruments included in this kit are concomitant with "The Essence of Composite Art," an artistic restoration concept developed by Frank J. Milnar, DDS, AAACD. These carefully-selected abrasives will help clinicians create natural-like aesthetics in an efficient manner.

- Comprehensive finishing system inclusive of finest diamonds, carbides and stones
- Supported by an efficient artisan's finishing technique
- Excellent for anterior composite restorations
- Promotes minimally invasive dentistry
