Sales: 866.244.2954 Service: 866.244.7095 Govt: 800.426.5913

For over forty years, Aseptico has been a premier manufacturer and distributor of high quality implant, endodontic, and portable dental equipment.

Aseptico dental equipment is developed, designed and manufactured in our facility in Woodinville, WA. Our engineering team designs our products to be regulatory compliant to U.S., Health Canada and international manufacturing and safety standards, allowing us to export to over 125 countries. Buying from Aseptico means you are getting the highest quality product at the lowest possible price. We believe these advantages set us apart.

At Aseptico our motto is "Advancing Dental Technology." Since 1975, it has been our steadfast commitment to bring you high quality, innovative products you can depend on.

6000 Series Implant Motor

- Recommended for implantology and rotary endodontics
- Places up to 50 Ncm (w/ Mont Blanc handpiece)
- 15-2,000 rpm with 20:1 implant handpiece
- Control water flow, motor direction, torque and presets from the foot pedal
- Reusable, autoclavable irrigation tubing. No more buying costly disposable tubing!
- Small Footprint: 8.6"W x 9.2"L x 4.8"H (22 x 23 x 12 cm)
- Dual voltage: 100-240V

The AEU-6000 is our best-selling implant motor because of its reliability and affordability. This versatile machine performs standard or mini implants and rotary endo with auto-stop-reverse. It also can be used as a back up for your restorative and oral surgery systems. No other motor on the market can give you these benefits at such an affordable price.

With upgradeable software, he AEU-6000 unit will be a workhorse for many years to come. Autoclavable irrigation tubing means you don't have to buy a new set for each procedure. Five preset buttons can be programmed separately for both implants and endodontics, reducing your procedure time dramatically.

"I have really enjoyed my Aseptico AEU-6000. It meets all my surgery needs, from placing implants to removing full bony impacted wisdom teeth.

I have found that this unit has more features and better torque than my old W&H... Ever since using the Aseptico product my W&H hasn't seen the light of day."

7000 Series Implant Motor

- Recommended for implantology, oral surgery, and rotary endodontics
- Places up to 80 Ncm (w/ Mont Blanc handpiece)
- Compatible with all implant systems
- Advanced calibration monitors handpiece health
- Dentsply Sirona File Library included
- Console Dimensions: 9.98"W x 9.42"L x 5.1"H (25.4 x 24 x 13 cm)
- Dual voltage: 100-240V

The 7000 series motor is the pinnacle of implant motor technology. Thirty years of motor making experience has culminated in the ultimate surgical device. A multi-function foot pedal allows for complete control of the system while not breaking the sterile field. Autoclavable irrigation tubing saves you hundreds of dollars a year in disposable costs. This motor features upgradeable software, allowing the unit to adapt to new developments in dentistry.

Complete with an advanced calibration system and optional fiber-optic upgrade, the 7000 Implant, Oral Surgery, and Endo System is the perfect motor for the user looking for an advanced all-in-one system.

"I have used the AEU-7000 for root canals, drilling for implants, leveling bone, augmentation procedures, and wisdom teeth removal. Most importantly, when doing large cases, the last thing you want is your surgical motor not working properly. I always rely on Aseptico motors for consistent reliability and superb performance."

Mont Blanc Implant Handpiece

- 80 Ncm Maximum Torque
- 20:1 Reducer
- 15 2,000 rpm (w/ 40k rpm micromotor)

The Mont Blanc Implant Handpiece is crafted from stainless steel and titanium, making it lightweight and durable. It features smooth surfaces that improve infection control and ensure easy cleaning. Precision ball bearing construction reduces friction to prevent overheating during surgical procedures.

"The Penguin RFA is fast, easy and predictable to use when checking the stability of a dental implant. Whether checking the ISQ of an implant at immediate placement following an extraction or before definitive restoration impressions, the Penguin RFA is very effective."

- Ara Nazarian DDS DICOL

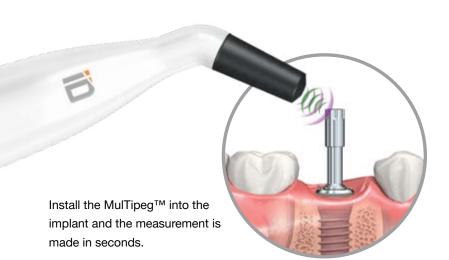

Penguinrea

Implant Stability Instrument

- Accurate ISQ measurement for greater confidence determining when to load the implant
- Cordless, light-weight and simple to use
- Half the price of competing ISQ devices
- Two-year warranty, Made in Sweden
- MulTipegs can be autoclaved up to 20 times!

The Penguin^{RFA} is the affordable solution for Implant Stability Quotient (ISQ) measurements. Developed by the same team who brought Resonance Frequency Analysis (RFA) to dentistry, the Penguin^{RFA} delivers accurate results using reusable, calibrated MulTipegs. In some cases, MulTipegs may be used across different brands for an even better return on investment.

*Part number varies by implant platform

Shown **Actual** Size

NEW for 2019!

- Painlessly and accurately locate implants covered by gum tissue!
- Locate a buried implant quickly and easily
- Minimize the recovery time for the patient
- Works with any titanium implant

By moving the wand over the suspected site of the implant and watching the guidance LEDs on the handle light up, you can locate a buried implant in seconds. Once located, the pinhole at the center of the sensing head can be used to mark the exact center of the implant. You are now ready to punch and reveal only the implant, preserving the maximum amount of soft tissue and reducing healing time!

Spotter <i>SPT-5l11001</i>	\$700

7000 Series Oral Surgery Motor

- Recommended for oral surgery and implantology
- Designed and manufactured in the U.S.A.
- Impressive 4.95 Ncm of torque at 80,000 rpm
- Easy cleaning and maintenance
- Console Dimensions: 9.98"W x 9.42"L x 5.1"H (25.4 x 24 x 13 cm)
- Dual voltage: 100-240V

The 7000 Series Oral Surgery Motor is powerful and efficient, with adjustable torque up to 4.95 Ncm for surgical applications. Smooth surfaces and rounded corners make wipe-down easy and prevent the buildup of dirt and debris.

Paired with a 1:2 Oral Surgery Handpiece, this impaction drill is perfect for third molar extractions, impacted teeth, bone contouring and other surgical procedures. The motor and handpiece quickly disconnect to be easily cycled out between procedures.

Transport III Portable Dental System

- High torque electric motor with restorative and endodontic programs
- Fiber optic electric handpiece connection
- High volume evacuator and saliva ejector
- Quiet, intuitive, powerful
- Built-in maintenance free compressor
- Water port for cavitron/scaler
- Dual voltage
- Optional fiber optic scaler
- 57-63 lb (25.8-28.6 kg)
- 17.9" x 10.4" x 22.1" (45.5 x 26.4 x 56.1 cm)

The Transport III is Aseptico's premium portable dental system. Features include noise reduction technology, an intuitive user interface, and 40k rpm brushless autoclavable micromotor. It is easy to set up, operate, and tear down. All components fit neatly into the impact resistant carrying case with inset handle and wheels.

Delivery module and user interface panel mount externally, placing controls and instruments at a comfortable level.

Dual level fluid sensors alert the user when the waste tank is 85% full for better procedure planning. The Transport III will then shut off the compressor before the tank exceeds capacity. The externally mounted waste container and optional amalgam separator means faster and cleaner waste disposal.

Express Portable Dental System

- Available with one or two air handpiece connections
- High volume evacuator and saliva ejector
- Built-in maintenance free compressor
- Water port for cavitron/scaler
- High capacity 1 gallon waste container
- 110V or 220V switchable voltage
- 44-48 lb (20-21.8 kg)
- 10.5" x 14.5" x 24" (27 x 36 x 61 cm)

Aseptico's most popular portable unit, the Express is a fully self-contained, lightweight, portable dental system. This powerful unit features up to two air-driven handpiece connections, high volume and saliva ejector suction, internal water reservoir, three-way syringe, and integrated air compressor. Foot control options include on/off electric or variable rheostat. The Express is transported using a pullout handle and built-in wheel assembly. Its compact size allows for convenient storage, while the impact-resistant case makes the Express ideal for any field environment. Designed for global use, the Express is compatible with 110V or 220V power sources, and comes in under the airline baggage weight limit.

NEW!Improved Operation

Compricart II Delivery System

- Two air handpiece connections
- High volume evacuator and saliva ejector
- Large stainless steel instrument tray (13.5" x 9.75")
- All day water system with two liter self-contained water bottle

Roll the Compricart II Dental Cart from room to room with ease! Great for hospitals and expanding dental offices, the simple controls of the Compricart II make operation stress-free. A compact design, ample work surface, stainless steel instrument tray, integrated water supply, and venturi suction (high volume and saliva ejector) round out the features of this versatile platform. Just connect to an air source – no central vacuum required! Including the optional AWS-1C allows an external scaler to use the cart's water supply.

Customer Service 866.244.7095

"There is no machine or technology invented that is maintenance free. We were so grateful to have an entire team supporting us from Aseptico, answering our every question and providing guidance even in the most challenging situations."

-Dr. John Snively from the remote mountains of Northern Guatemala

Warranty

Aseptico warrants its products against defects in material or workmanship for a period of two (2) years, from date of original invoice. This warranty is not transferrable. Some handpieces are warranted for one year under the same conditions. Other handpieces and expendable components, such as air turbines and light bulbs, are covered by shorter warranty periods, or have no warranty. Aseptico's sole obligation under product warranty is (at its sole option and discretion) to repair or replace any defective component or product in part or whole. Aseptico shall be the sole arbiter of such action.

In the event of alleged defect under warranty, the purchaser is to notify Aseptico's Customer Service Department promptly. Customer Service will provide instructions, usually directing that the product be returned for service. Shipment to Aseptico and the cost thereof is always the responsibility of the purchaser.

Accidental misuse, inappropriate installation, or failure to perform directed maintenance voids the warranty.

Aseptico does not assume, under this warranty, any risks or liabilities arising from the clinical use of its products, whether or not such use involves coincidental utilization of products manufactured by others. Deliberately defacing, modifying, or removing the serial number voids the warranty.

NOTE: In the interest of serving our customers more efficiently, customers receiving service on non-warranted repairs are expected to accept charges that are less than \$550 without further notification.

Quality System

Aseptico's Quality Management System is certified for full quality assurance by the Conformity Assessment Body British Standards Institution (BSI) under the Medical Device Directive 93/42/EEC Annex II.3, and ISO 13485 which is recognized worldwide.

Ordering Polices

- Aseptico accepts Visa, MasterCard, Discover, and American Express.
- Open account is available only if credit is approved in advance.
- Freight costs are added to all invoices.
- All orders are shipped FOB origin.
- Delinquent accounts are subject to 1.5% monthly interest, attorney's fees, collection and court costs when needed to satisfy debt.
- Prices subject to change without notice.
- Please visit: aseptico.com/support/warranty-policies for additional warranty and repair policy information.

Sales Tax

Aseptico uses a tax service (Avalara) to calculate and apply state sales tax to invoices for all states that Aseptico is registered to collect/remit sales tax. We reserve the right to register in additional states at any time and begin collecting/remitting sales tax.

The amount of tax charged on your order will depend upon many factors including type of item purchased and destination of the shipment. Factors can change between the time you place an order and the time of invoicing, which could affect the calculation of sales taxes. The amount appearing on your order as sales tax may differ from the sales taxes ultimately charged.

Customer is responsible for any applicable state sales or use taxes not charged by Aseptico.

Sales Tax Exemptions

Unless Aseptico is in possession of a validated exemption certificate prior to shipment, the customer must pay the entire invoice, including sales tax.

Certificates can be emailed to AR@aseptico.com

Return & Repair Policies

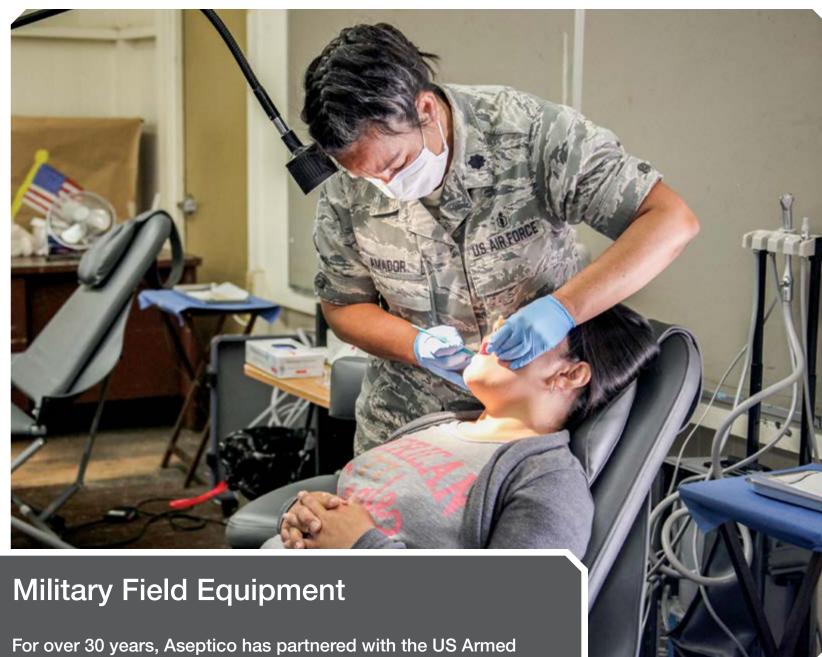

- Products that have been in clinical use *cannot* be returned for credit.
- Service and repair charges are billed on credit card.
 Customer is expected to accept charges up to \$550 without advance notification. Minimum service/repair charge is \$125.
- All returns & repairs require prior authorization.
 Contact Aseptico Customer Service for a Return Material Authorization number (RMA#).
- The RMA# must appear clearly on the exterior of the package being returned or it may be rejected and returned to the sender.
- Packages received without prior authorization are not the responsibility of Aseptico. Aseptico reserves the right to dispose of such packages and their contents 30 days after receipt with no obligation to the sender.
- The sender is responsible for proper packaging and for all costs for return shipment to Aseptico.
- New products may be returned for full credit (less shipping charges) under a Return Material Authorization number within 30 days of date of original invoice.

International Customers

Most Aseptico products are CE-marked and Health Canada licensed. However, customers should verify the status of any specific item(s) with their sales representative or local distributor prior to finalizing the purchase. Please contact your local Aseptico distributor for pricing and availability.

Prices shown in the catalog are in US dollars. If you are unsure of the Aseptico distributor in your country, for specific ordering and payment policies, or for general product inquiries, please contact our International Sales Department at int@aseptico.com.

For over 30 years, Aseptico has partnered with the US Armed Forces and militaries around the world to develop the most comprehensive line of portable field equipment in the industry.

For government inquiries email gov@aseptico.com or call 800.426.5913

Painless Local Anesthesia Delivery

More Comfortable For You

- Ultralight 1.9 oz handpiece with ergonomic pen-like grip
- Unobstructed view of the cartridge during injection
- Simple automated aspiration function
- Uses standard needles and cartridges, no wasteful additional disposables

"One of the biggest pain points of my day has been delivering comfortable injections. I have been more than willing to compromise my body to get into the best position to administer injections. Calaject is a game changer. My shoulder and back pain was eliminated with this device" —Brett Gilbert DDS

More Pleasant For Your Patients

- Anesthesia is delivered under the patient's pain threshold
- Eliminates the "scary" look of the syringe
- Intraligamentary injections allow for single-visit bilateral dentistry
- High-tech, sleek design gives patient confidence in your care

"Dental pain, anxiety and fear are among the most important factors that prevent patients from seeking dental care." —Journal of Oral Science
