Disclaimer: Dynarex will make every effort to inform our customers of any changes made to a specific product, catalog copy or marketing collateral material. Dynarex cannot be held responsible for these changes. Dynarex reserves the right to make changes to the technical specs, dimensions, look or any other product change at any time without prior notice except as required by the US FDA Code of Federal Regulations for changes made to medical devices, OTC drugs and other foreign government regulations. Please note: All products in the Dynarex catalog may not be licensed in all countries. Customers are hereby directed to consult with their Customer Services Representative before placing a purchase order.

Powdered gloves are no longer for sale by Dynarex. The US Food and Drug Administration (FDA) issued a final rule banning powdered medical gloves effective January 18, 2017.

Dear Dynarex Valued Distributor Partner:

Welcome to a new year filled with many new exciting opportunities for our distributor partners. It is with great pleasure that we present our *2015 Product Catalog–Volume III*. Many new product lines have been added, offering exceptional product quality and competitive pricing structures you appreciate and have come to expect from Dynarex. This year we have launched more new products than ever before! Please take some time to go through the catalog and see how we can assist you in doing business with Dynarex.

We continually invest a great deal in our infrastructure as a company with our facilities and in human resources. In addition, both our dedicated Dynarex sales force and customer service department are ready to service you even better than before.

As we continue to experience healthy growth, an expanded product portfolio is not all that's new at Dynarex! The addition of our distribution facilities will now help support an even larger nationwide distribution network throughout the country. Our warehouse & shipping facilities include: Orangeburg, NY (HQ); Jacksonville, FL; Ada, OH; Pocahontas, AR and Reno, NV. Our distribution accessibility allows us to bring you the products you need more efficiently. We have greatly improved our service and inventory capabilities as a result of these facilities. Our expanding customer service department is here to assist you in processing your orders promptly and provide you the very best service available.

Our increased marketing efforts have elevated our company to be *"The Brand To Know™"*. We have launched many new marketing initiatives throughout the year. We keep you informed with our ongoing e-mail blast communications. There is always something new going on at Dynarex! The Dynarex Website www.dynarex.com offers so many resources to help you sell our products. We offer customized Distributor/Dynarex sell sheets, end-user marketing and advertising materials, collateral materials focusing on our key market segments, internet banner ads, direct mailers and more! Listen to our "On-Hold Message" while you wait on the phone, look for our industry product listings & press releases and see us at a variety of industry tradeshows throughout the year!

Our company is committed to manufacturing the highest quality medical products in the industry. Our mission is to continue to offer all the products that you need under one roof, at a competitive price. We continue to look at ways we can continue to provide our distributors all the necessary support they need to increase their sales.

Dynarex continues to grow at a steady pace and looks ahead to many new opportunities that will make both our distributors and Dynarex successful. By and large, our success is due to loyal and devoted customers like you. We will continue to earn your confidence and your business this year. We want to thank you in advance for all your business and continued support!

Sincerely,

Zalman Tenenbaum

CEO/Dynarex Corporation

Quality Policy

We are committed to delivering products and services that meet and exceed customer expectations by:

- *Setting annual objectives for the business, our processes and our people.*
- *Measuring performance and taking action to realize the objectives.*
- *Continually working to improve the effectiveness of the quality management system through the improvement process.*
- *Constantly improving our suppliers processes to reduce product variability and maintain quality.*
- *Providing ongoing training for all employees.*
- *Meeting all current requirements for national and international regulations.*
- *Achieving operational excellence in all that we do by developing our employees and involving them in these activities, we will deliver unmatched customer satisfaction through constant interaction with our customers.*

Zalman Tenenbaum / CEO

Headquarters, Orangeburg, NY

Dynarex was established in 1967, and has evolved into one of the healthcare industry's leading manufacturers of disposable medical products. We have thousands of distributor partners in all 50 states, as well as Canada, Europe and South America. Our manufacturing facilities are found in the US and all over the world. Dynarex has five regional warehouses located in Orangeburg, NY; Pocahontas, AR; Ada, OH; Jacksonville, FL and our newest facility in McCarran, NV. These locations combined offer over 750,000 sq. ft. of space dedicated to shipping and warehousing. Our products encompass such categories as: Wound Care, Antiseptic Products, Personal Protection, Incontinence Products, Patient Care, Instrument Care, Diagnostics, Wetpack Products, Ointments & Creams, Gloves, Urologicals, Respiratory, First Aid, EMS and more!

Back in 2003, Dynarex Corporation acquired select assets from Tillotson Healthcare, a leader in innovative hand covering solutions and owner of proprietary patents to produce several of the most unique gloves in the industry. For over 40 years, Tillotson has been manufacturing a full line of examination, surgical, and industrial grade gloves, including latex, low-protein latex, soft nitrile and stretch vinyl. Dynarex continues to develop new Dynarex and Tillotson branded gloves for many industries. Dynarex maintains a modern, state-of-the-art warehouse and headquarters in Orangeburg, NY. We have a dedicated staff devoted to the goal of providing unmatched customer service to our customers. At Dynarex, we ensure that your orders are shipped accurately and on time. The majority of our orders are shipped within 24 hours of receipt. Our experienced and friendly customer service staff is always ready to assist you.

We continue to increase our new product development and production in all these product categories and expect many more in the coming year. Dynarex looks to the future; our commitment to our customers is consistent: to provide a wide range of the finest quality disposable medical products, at an exceptional value, all under one roof to ultimately increase your profits.

Terms and Conditions of Sale

Pricing Policy:	Prices subject to change without notice because of any unforeseen market condition changes.
Special Pricing:	Large quantity special pricing available on most products.
Minimum Order:	$250.00 Orders below this minimum will be subject to a $20.00 below minimum charge.
Terms:	Subject to credit approval.
Payment Terms:	Net 30 Days. Amex, Visa and Mastercard accepted for payments made within 30 day terms only. Interest may be charged at the rate of 1.5% per month on an overdue balance.
Freight Policy:	For shipments within continental USA…FOB Dynarex warehouse. Over $1,500.00 no freight charge. **Some exceptions are at the discretion of Dynarex which include: Wood Products, Povidone-Iodine Solutions, CSR Wraps, Cotton Balls, Ice Packs, Med Cups, Drinking Cups and Perineum Wash.** Inside delivery, requests for delivery appointments or any other special delivery request shall be the responsibility of the customer. ** See special freight contingency policy below.
Drop Shipments:	Drop shipments to one destination will be subject to a $20.00 service charge in addition to standard freight charges. **Regular freight terms apply.**
Carrier Claims:	Claims for defective shipping cartons and shortages in shipment must be filed by the customer and noted on the carrier's freight receipt at the time of delivery.
Returned Goods Policy Authorization:	Written request must be sent to Dynarex listing Dynarex Invoice Number, Item Number, Quantity and Lot Number before any merchandise can be returned. Written authorization must be given by Dynarex prior to return of merchandise. Otherwise the merchandise can be subject to refusal at senders expense.
Merchandise Return for Credit:	Only unopened / salable cartons will qualify for return / credit. Unless otherwise stated in writing, all returns shall be shipped prepaid to Dynarex warehouse. Credit will be granted as follows: • Defective merchandise – at time of receipt, 100% credit or replacement • Dynarex shipping error – 100% credit • Salable merchandise, unopened cartons returned within 75 days with written authorization – 80% credit • Salable merchandise, unopened cartons returned within 150 days with written authorization – 50% credit • Merchandise unsuitable for resale because of age, condition, obsolescence or expiration date – No credit • Products in "high demand" as a result of current market conditions are at the discretion of Dynarex to approve or deny return
Claims:	All sales are subject to acceptance of filing any claim in the State of New York exclusively.
****Freight Contingency Policy**	Given rising transportation costs, Dynarex reserves the right to review the prepaid freight status of any purchase order if the specific product mix and shipping destination of said order proves to be untenable. Customer will be contacted to discuss a mutually agreeable solution.

- *Soft packs offer easy to use peel open closure as well as snap closure to prevent wipes drying out after opening*

Flush Away Flushable Wipes

Safe, Clean & Disposable Wipes. Dynarex introduces a breakthrough in a new premoistened wipe that is flushable and dispersible. Dynarex uses advanced technology unlike regular wipes which are only flushable because they are small enough to leave the bowl. What makes our product unique is its dispersibility: it easily breaks down back to fibers as it goes through the pipes. As an additional advantage, our product has cellulose fibers and is biodegradable.

- *Safe to flush*
- *Convenient to use*
- *Safe for use on patients' skin*
- *pH balanced and alcohol free*
- *Cleans and moisturizes*
- *Soothes with the touch of aloe*

Reorder No.	Description	Quantity

Your First Choice for Gloves

State-of-the-Art Facilities Create State-of-the-Art Value

For over 40 years, our Tillotson Healthcare brand has been offering innovative hand covering solutions for the healthcare community – with a full line of examination, surgical and industrial-grade gloves, including latex, low protein latex, nitrile and vinyl. Our low modulus line of gloves (Formula One®, Ultra Care®) remains the benchmark for comfort, fit and tactile sensitivity. In response to the significant issue of latex allergies, these Allotex® enzyme-treated latex gloves reduce allergy causing latex content by as much as 99%. We look forward to providing you with new and exciting hand covering solutions that combine high quality and exceptional value.

At Dynarex, we take our commitment to customer satisfaction very seriously. That's why we employ the most advanced manufacturing and quality control standards in the medical glove products industry. Our high-speed, computer controlled equipment in our state-of-the-art manufacturing around the world assures products that are of consistently high quality and represent exceptional value.

Patented Technologies and proprietary formulations set the Tillotson Healthcare branded gloves apart from the competition. Whether it's our low-allergen Allotex® enzyme-treated latex products or True Advantage®, a revolutionary new soft nitrile product with the fit and feel of natural rubber latex – Tillotson remains the leader in innovative hand covering solutions.

Tillotson branded products are created with one goal in mind: to exceed your expectations with a wide range of hand covering products backed by outstanding customer service. No matter which product is right for you, you can expect high quality and value that never vary – product after product, day after day.

The Tillotson Healthcare brand has remained focused on providing innovative hand covering solutions to the healthcare community.

The Material Choice

A properly balanced glove program should not attempt to pick one glove type for all uses. A glove program should choose an assortment of gloves that most appropriately addresses the varied needs of the end user. The goal is to maximize utility and functionality at the appropriate protection level and at the appropriate cost.

Dynarex recommends that all glove programs should include each of the below material choices as appropriate.

Low Allergen Latex: Allotex®

Allotex® is enzyme treated latex where the latex proteins are digested and the antigenic protein content of the latex itself is reduced by as much as 99+%. Not reliant on post processing for low allergen levels, Allotex® is simply a better latex. Gloves made from Allotex® have the same fit, feel, comfort and excellent barrier properties of a conventional latex glove.

As shown by the immunologic ELISA Test (ASTM D-6499), products made with Allotex® have antigenic protein levels of as much as 99+% less than the same product made with conventional latex.

Use in high risk areas where there exists a potential for contact with bodily fluids. Low allergen latex such a Allotex® has superior extended wear barrier properties and is the material of choice in high risk environments without the fear of sensitization. Low allergen latex should also be used when there is a functional need for increased tactile sensitivity or extended wear durability and comfort.

Nitrile

Use in high risk environments where prolonged exposure to blood, body fluids, cleaning solutions and other chemicals is of concern. Nitrile has a high tensile strength and better chemical resistance than natural rubber latex, especially to hydrocarbon-based solutions and do not contain latex proteins.

What is Nitrile?

Nitrile gloves are made from a synthetic polymer. The nitrile polymer is an elastomer made from 3 monomers. The physical properties (chemical permeation, softness, modulus) of the nitrile are dependent on the formulation of the compound and the relative percentage of the three monomers. There is great variability between different nitrile gloves in fit, feel and comfort.

Vinyl

Use when there is low risk of infectious contact with direct patient care. Vinyl is an excellent choice in the food service, nonpatient housekeeping and maintenance areas.

What is Vinyl?

Poly-vinyl chloride is a plastic. To prevent PVC gloves from being as stiff as PVC pipe, plasticizers are added that soften the film. During extended use, vinyl films can experience reduced barrier effectiveness.

What is Stretch Vinyl?

Gloves are made from a softer resin that produce more flexible gloves without additional plasticizers that might weaken the film. In fact, the specifications for Stretch Vinyl call for higher tensile strength and elongation than standard vinyls. Because of this design, molds can be downsized so that the glove has a more conforming fit, producing better tactile sensitivity than typical vinyl gloves.

What you should know about Tillotson Brand Gloves:

What is Low Modulus?

The property that most impacts the comfort of a glove is its modulus of elasticity or "modulus" for short. Modulus is the resistance of a material to stretch. The higher the modulus, the more force it takes to stretch the glove. "Low modulus" conveys that the glove is easy to stretch and thus puts less stress on the hand while worn, has greater tear and puncture resistance, increased tactile sensitivity and comfortably fits the widest assortment of hand sizes, an important consideration for users who need a skin tight glove fit. ASTM has recognized the Low Modulus Glove as a separate TYPE II Glove category.

What is Low Protein?

Although there is no formal definition of "Low Protein" as recommended by NIOSH in its 1998 Bulletin, common sense says that if a glove tests near or below the practical limit of the test for Protein, it would be "low" compared to gloves that test well above the limit.

For comparison, using the Lowry test, the lower limit is 50 micrograms per g of glove while gloves can be found that test in excess of 10 times this limit. Using the more recently developed ASTM ELISA Inhibition test that can detect much smaller amounts of antigenic protein results in the single digits or below should qualify as "low protein".

What is Powder-Free?

To qualify as a powder-free glove based on the current ASTM D-3578, a glove must not contain more than 2 milligrams of powder when tested by ASTM D-6124 test for powder. Since all gloves start out as powdered gloves, this test measures the degree of removal of these powders.

What do all the different terms associated with Powder-Free gloves mean?

Polymer coated — A synthetic material is applied to the inside of the glove during manufacturing that eliminates or reduces the need for donning powders such as corn starch.

Chlorinated — The use of Chlorine during processing to harden the surface of the glove through oxidation to allow dry handdonning without powders.

Non-chlorinated — The elimination of Chlorine treatment through use of coatings. Non Chlorinated gloves have generally improved shelf life, color and smell.

Powder-Free — Meeting the ASTM specification of no more than 2 mg of any filterable residue per glove.

Powderless — Gloves made without the use of donning powder but containing >2 mg of filterable residue per glove. Powderless gloves tend to be easier to double glove than Powder-Free gloves.

Siliconized — The use of silicone instead of polymer coating or chlorination to facilitate donning the glove.

What is Non-Chlorinated?

Adding Chlorine to the wash process is an inexpensive means to modify the glove surface to allow easy dry hand donning. However, damp hand donning and extended shelf life storage are poor. The use of polymers to coat the inside of the glove considerably improves both of these characteristics at the expense of slightly harder dry hand donning.

What is BISOC Chlorination?

Chlorination is the use of Chlorine during the processing to harden the surface of the glove through oxidation to allow dry hand donning without powder. However, when chlorination is applied to the outside surface of the glove, grip characteristics are reduced. The BISOC Process (Bi-Surfacial Oriented Chlorination) reduces this problem by using a two stage chlorination process that concentrates the chlorination on the inside of the glove where it is desired.

What is Emollient Enriched Powder?

Glove starch powders are inherently drying to the skin. Their absorptive powers draw out moisture and oils that otherwise help maintain healthy skin. To prevent this,Tillotson blends Selan® hand cream with the starch prior to application. For over 25 years, this method has produced gloves with a silky feel that users prefer over conventional gloves.

What Makes TRUE ADVANTAGE Nitrile Gloves So Comfortable?

True Advantage's unique, patented curing system "connects" the polymer particles during curing at different sites in the polymer backbone than conventional sulfur based cures. These sites allow the polymer more degrees of freedom of movement and thus allow the film to conform to the hand rather than constrict it.

What is Accelerator Free Technology?

Even though nitrile is a synthetic polymer that does not contain latex proteins, it is not necessarily free of allergens. Conventional nitrile gloves require sulfur based vulcanization to develop the necessary physical properties to impart effective barrier properties. As with latex, this requires the use of accelerators like carbamates, thiurams and/or thiazoles in the glove formulation. These materials can cause common Type IV allergic reactions in sensitive users. True Advantage instead uses a patented, non sulfur based curing system that eliminates the need for these accelerators.

What are the causes for Irritation Complaints from glove users?

Reactions to gloves can involve either allergic or nonallergic reactions. Because of the variety and complexity of response to different offending agents, classification of the different sensitivity reactions has been difficult and confusing. Irritant contact dermatitis, the most common, is a reactions that is not caused by an immune response, but by skin cell damage that leads to inflammation. Type IV delayed hypersensitivity, also known as Allergic Contact Dermatitis, usually involves an immune response to a chemical, rather than to protein. It can spread over a wider area than just the site of contact, and it is considered delayed in onset because symptoms can appear several hours after contact. Type I immediate hypersensitivity usually involves an immune response to the protein antigens in natural rubber latex. If an individual becomes Type I sensitized, subsequent exposure can cause an immediate reaction, with symptoms ranging from urticaria (itching and hives), swelling of tissues, wheezing, difficulty breathing, nausea, and in rare instances, anaphylactic shock.

What do I need to know about Latex Protein Levels?

ASTM has set and FDA has proposed a maximum of 200 µg/g (µg/dm^2) for any glove. FDA has allowed a level of 50 µg/g (µg/dm^2) as a lower limit on claims using the Lowry test. Recently, ASTM has proposed a limit of 10 µg/dm^2 for Antigenic Protein based on the new ASTM ELISA Test (D-6499-00). While each one of these numbers conveys meaningful information, users should be wary of attempting to make judgments based on small differences in values around each of these numbers.

D3578-.01ae2

The most recent revisions to the latex examination glove standards set maximum protein to either 10 µg/dm^2 by the ELISA test for antigenic protein or 200 µg/dm^2 by the lowry test for total protein and a maximum powder content of 10 mg/dm^2 (approximately 80 mg/glove). While not mandatory, this standard sets the mark for quality exam gloves.

Formula One® Latex Exam Gloves – Non-Sterile

Reorder No.	Description	Quantity
6102	Lightly Powdered – S	10/100/Cs
6103	Lightly Powdered – Unisize	10/100/Cs
6104	Lightly Powdered – L	10/100/Cs

- *Manufactured with a Patented Allotex® enzyme treated latex which reduces latex allergens by as much as 99+%*
- *Low modulus formulation for the ultimate in comfort and stretch*
- *Lightly powdered*
- *Less than 70mg powder per glove*

Ultra Care® Latex Exam Gloves – Non-Sterile

Reorder No.	Description	Quantity
6202	Powderless Inner Surface – S	10/100/Cs
6203	Powderless Inner Surface – Unisize	10/100/Cs
6204	Powderless Inner Surface – L	10/100/Cs

Powdered gloves are no longer for sale by Dynarex. The US Food and Drug Administration (FDA) issued a final rule banning powdered medical gloves effective January 18, 2017.

True Advantage® Nitrile Exam Gloves

Reorder No.	Description	Quantity
6501	Powder-Free – XS	10/100/Cs
6502	Powder-Free – S	10/100/Cs
6503	Powder-Free – M	10/100/Cs
6504	Powder-Free – L	10/100/Cs
6505	Powder-Free – XL	10/100/Cs

- *The first incredibly soft nitrile glove that is chemo approved and improves upon the feel of latex*
- *Powder-Free Exam Glove with polyglide lining*
- *Not made with natural rubber latex*

Manufactured using a patented non-sulfur based curing process which connects the polymer molecules when compared to the curing methods of other nitrile gloves. This allows the polymer more freedom of movement, allowing the glove to conform to the hand rather than constrict it.

True Advantage® High Risk Gloves

Reorder No.	Description	Quantity
6511	Powder-Free – XS	10/50/Cs
6512	Powder-Free – S	10/50/Cs
6513	Powder-Free – M	10/50/Cs
6514	Powder-Free – L	10/50/Cs
6515	Powder-Free – XL	10/50/Cs

- *The first incredibly soft nitrile glove that is chemo approved and improves upon the feel of latex*
- *Powder-Free Exam Glove with polyglide lining*
- *Not made with natural rubber latex*
- *Meets NFPA standards and is chemotherapy approved*

Powdered gloves are no longer for sale by Dynarex. The US Food and Drug Administration (FDA) issued a final rule banning powdered medical gloves effective January 18, 2017.

Powder-Free Plus® Latex Exam Gloves – Powder-Free

Reorder No.	Description	Quantity
6612	Powder-Free – S	10/100/Cs
6613	Powder-Free – M	10/100/Cs
6614	Powder-Free – L	10/100/Cs

AccuTouch® Latex Exam Gloves – Powder-Free

Reorder No.	Description	Quantity
6621	Powder-Free – XS	10/100/Cs
6622	Powder-Free – S	10/100/Cs
6623	Powder-Free – M	10/100/Cs
6624	Powder-Free – L	10/100/Cs
6625	Powder-Free – XL	10/100/Cs

- *Non-chlorinated*
- *Polymer lined for easy donning*
- *Micro textured surface for superior grip*
- *Less than 50 micrograms of protein per g of glove*

Sensi Grip® Latex Exam Gloves

Reorder No.	Description	Quantity
6701	Lightly Powdered – XS	10/100/Cs
6702	Lightly Powdered – S	10/100/Cs
6703	Lightly Powdered – M	10/100/Cs
6704	Lightly Powdered – L	10/100/Cs
6705	Lightly Powdered – XL	10/100/Cs

- *Economical lightly powdered latex glove*
- *Bisque finish*
- *Less than 200 micrograms of protein per gram of glove*

Sensi Grip® Latex Exam Gloves – Powder-Free

Reorder No.	Description	Quantity
6711	Powder-Free – XS	10/100/Cs
6712	Powder-Free – S	10/100/Cs
6713	Powder-Free – M	10/100/Cs
6714	Powder-Free – L	10/100/Cs
6715	Powder-Free – XL	10/100/Cs

- *An economical approach to powder free hand protection*
- *Micro-textured grip*
- *Less than 50 micrograms of protein per gram of glove*

Powdered gloves are no longer for sale by Dynarex. The US Food and Drug Administration (FDA) issued a final rule banning powdered medical gloves effective January 18, 2017.

Multi Care® Vinyl Exam Gloves – Powder-Free

Reorder No.	Description	Quantity
6811	Powder-Free – XS	10/100/Cs
6812	Powder-Free – S	10/100/Cs
6813	Powder-Free – M	10/100/Cs
6814	Powder-Free – L	10/100/Cs
6815	Powder-Free – XL	10/100/Cs

- *Powder-free gloves provide protection for health care personnel with sensitivity to powdered gloves*
- *Ideal for use in the lab, electronics and computer assembly*
- *Not made with natural rubber latex*

Next Generation Stretch Vinyl Exam Gloves

Reorder No.	Description	Quantity
6822	Powder-Free – S	10/100/Cs
6823	Powder-Free – M	10/100/Cs
6824	Powder-Free – L	10/100/Cs
6825	Powder-Free – XL	10/100/Cs

- *More comfortable, conforming fit than standard vinyl gloves*
- *Offers enhanced tactile sensitivity*
- *Softer resins produce a glove with more stretch*
- *Same color as latex*
- *Not made with natural rubber latex*

Powdered gloves are no longer for sale by Dynarex. The US Food and Drug Administration (FDA) issued a final rule banning powdered medical gloves effective January 18, 2017.

CuraFoam™ Foam Dressing – Sterile

Reorder No.	Description	Quantity
3011	Foam Dressing – 2"×2"	12/10/Cs
3012	Foam Dressing – 4"×4¼"	12/10/Cs
3013	Foam Dressing – 6"×6"	12/10/Cs

Maintains a moist wound environment, prevents bacterial contamination and absorbs up to 20 times its own weight.

- *Manage chronic and acute wounds*
- *Lower extremity ulcers, pressure ulcers, donor sites, and full thickness wounds*
- *Low to moderate exuding wounds*
- *Partial and full thickness wounds*
- *Wound stages (pressure ulcers) II, III, IV*
- *High absorbency level*

3011 HCPCS: A6209, 3012-3013 HCPCS: A6210

DynaDerm™ Hydrocolloid Dressing – Sterile

Reorder No.	Description	Quantity
3014	Hydrocolloid Dressing (Thin) – 2"×2"	12/20/Cs
3015	Hydrocolloid Dressing (Thin) – 4"×4"	12/10/Cs
3016	Hydrocolloid Dressing (Thin) – 6"×6"	12/5/Cs
3017	Hydrocolloid Dressing (Sacral) – 6"×7"	12/5/Cs
3018	Hydrocolloid Dressing (Extra Thin) – 4"×4"	12/10/Cs
3019	Hydrocolloid Dressing (Extra Thin) – 6"×6"	12/5/Cs
3020	Hydrocolloid Foam – 4"×4"	12/5/Cs

Maintains a moist wound environment that remains permeable to moisture vapor and oxygen. Can be safely worn for several days, depending on the wound condition and exudate levels.

- *Non-infected wounds*
- *Partial thickness ulcers*
- *Full-thickness ulcers*
- *Wound stages (pressure ulcers) II, III, IV*
- *Low absorbency level*

3014-3015 & 3018 HCPCS: A6234, 3016-3017 HCPCS: A6238, 3019 HCPCS: A6235, 3020 HCPCS: A6209

DynaLevin™ Waterproof Adhesive Bordered Foam – Sterile

Reorder No.	Description	Quantity
3021	Waterproof Adhesive Bordered Foam – 4"×4"	12/10/Cs
3022	Waterproof Adhesive Bordered Foam – 6"×6"	12/10/Cs

Maintains a moist wound environment. Absorbs four times more than hydrocolloids of the same size and will not adhere to wound bed.

- *Manage chronic and acute wounds*
- *Lower extremity ulcers, pressure ulcers, donor sites, and full thickness wounds*
- *Wound stages (pressure ulcers) II, III, IV*
- *Medium absorbency level*

3021-3022 HCPCS: A6212

FoamFlex™ Non-Adhesive Waterproof Foam Dressing – Sterile

Reorder No.	Description	Quantity
3023	Non-Adhesive Waterproof Foam – 2"×2"	12/10/Cs
3024	Non-Adhesive Waterproof Foam – 4"×4"	12/10/Cs
3025	Non-Adhesive Waterproof Foam – 6"×6"	12/10/Cs

Sterile foam dressing maintains a moist wound environment, has a semi-permeable film and absorbs 4 times more than hydrocolloids. Also prevents bacterial contamination and conforms to awkward-to-dress areas.

- *Manage chronic and acute wounds*
- *Lower extremity ulcers, pressure ulcers, donor sites, and full thickness wounds*
- *Low to moderate exuding wounds*
- *Partial and full thickness wounds*
- *Wound stages (pressure ulcers) II, III, IV*
- *High absorbency level*

3023-3024 HCPCS: A6209, 3025 HCPCS: A6210

DynaGinate™ Calcium Alginate Dressing – Sterile

Reorder No.	Description	Quantity
3026	Calcium Alginate Dressing – 2"×2"	12/10/Cs
3027	Calcium Alginate Dressing – 4¼"×4¼"	12/10/Cs
3028	Calcium Alginate Dressing – 4"×8"	12/5/Cs
3029	Calcium Alginate Rope Dressing – 2g×30cm	12/5/Cs

Used as a topical wound dressing for moderate to high exudating wounds absorbing up to 17 times its own weight. Conforms readily to any wound bed. Gels on contact with moisture, and assists in maintaining a moist wound healing environment.

- *Pressure ulcers*
- *Diabetic ulcers*
- *Leg ulcers*
- *Donor sites*
- *Surgical wounds*
- *Lacerations and abrasions*
- *Wound stages (pressure ulcers) III, IV*
- *High absorbency level*

3026 HCPCS: A6196, 3027-3028 HCPCS: A6197, 3029 HCPCS: A6199

DynaGinate AG™ Silver Calcium Alginate Dressing – Sterile

Reorder No.	Description	Quantity
3030	Silver Calcium Alginate Dressing – 2"×2"	10/10/Cs
3031	Silver Calcium Alginate Dressing – 4"×5"	10/10/Cs
3032	Silver Calcium Alginate Dressing – 4"×8"	10/5/Cs
3033	Silver Calcium Alginate Rope Dressing – 2g×30cm	10/5/Cs

Same as Calcium Alginate dressing, with antibacterial Silver. Provides 3 days of continuous antibacterial protection. Absorbs 12 times its own weight in fluid.

- *Infected wounds and wounds suspected of possible infection*
- *Pressure ulcers*
- *Leg ulcers*
- *Diabetic wounds*
- *Donor sites*
- *Moderate to heavy draining*
- *Partial and full thickness wounds*
- *High absorbency level*

3030 HCPCS: A6196, 3031-3032 HCPCS: A6197, 3033 HCPCS: A6199

ActiGuard™ HydroGel Sheet – Sterile

Reorder No.	Description	Quantity
3034	4"×4" HydroGel Sheet	12/10/Cs

Non-adhering dressing for use on all partial and full thickness wounds (except 3rd degree burns). Absorbs up to 3 times its own weight in moisture. Permeable to air and moisture vapor, allowing excess moisture to evaporate and allowing the wound to breathe. Transparent for easy monitoring.

- *Diabetic ulcers*
- *Pressure ulcers*
- *Donor sites*
- *Selected surgical sites*

3348	4"×3" 4-Ply, Sterile 2 per pack	24/25/Cs
3349	4"×4" 4-Ply, Sterile 2 per pack	24/25/Cs

Post-Surgical Recovery Starts with Dynarex Post-Op & Gauze Sponges

Healing begins with sterile Dynarex Post-Op Sponges. Their non-woven material offers better wicking and more absorbency than single-layer sponges.

Or choose Dynarex Advantage Gauze Sponges. They're our most economical sterile gauze sponges, available in 8-ply and 12-ply. Both sponges come in convenient sizes, sterile, and peel-down pouches for quick & easy access.

- *Non-woven post-op sponges provide superior absorption for superior patient care*

3348-3349 HCPCS: A6402

1408	Sting & Bite Pad, Bulk Pack	3M/Cs

- *Liquid products packaged in economical ampule form offering significant savings*
- *Precise measure for uniformity*
- *Hermetically sealed*
- *Unit dose*
- *Increased storage shelf life*
- *Effective delivery system*
- *Not made with natural rubber latex*

Nasopharyngeal Airways

Reorder No.	FR Size	Spec. ID Millimeter	Quantity
4591	20 Fr.	5.0 +/-0.15	10/Cs
4592	22 Fr.	5.5 +/-0.15	10/Cs
4593	24 Fr.	6 +/-0.15	10/Cs
4594	26 Fr.	6.5 +/-0.15	10/Cs
4595	28 Fr.	7 +/-0.15	10/Cs
4596	30 Fr.	7.5 +/-0.15	10/Cs
4597	32 Fr.	8 +/-0.15	10/Cs
4598	34 Fr.	8.5 +/-0.15	10/Cs
4599	36 Fr.	9 +/-0.15	10/Cs

Recommended for use in the semi-conscious or unconscious patient with an intact gag reflex. Not easily dislodged during transport and better tolerated than an Oropharyngeal Airway. Designed to be inserted into the nasal passageway to secure an open airway. When a patient becomes unconscious, the muscles in the jaw commonly relax and can allow the tongue to slide back and obstruct the airway.

- *Sterile*
- *Flared end prevents the device from becoming lost inside the patient's nose*
- *Soft – no damage to nasal passage*
- *Flexible – resists collapse or kinking*
- *Not made with natural rubber latex*

Oral Airways (Berman Type)

Reorder No.	Description	Quantity
4715	Infant, 40 mm, Pink	100/Cs
4717	Infant, 40 mm, Pink, Individually Bagged	24-Bg/Bx

4757	L, 100 mm, Red, Individually Bagged	24-Bg/Bx
4765	XL, 110 mm, Orange	100/Cs
4767	XL, 110 mm, Orange, Individually Bagged	24-Bg/Bx
4791	Kit – 1 of Each Size: 40 mm, 60 mm, 80 mm, 90 mm, 100 mm, 110 mm	6 Kits/Cs

- *Oral Airways are made of polypropylene (PP)*
- *Disposable airways provide superior performance*
- *Unobstructed passage – unique perforated midway openings assure ventilating channel and permit access of a suction catheter, even if airway shifts or is partially occluded*
- *Strength – reinforced bite block prevents collapse of airway*
- *Flexibility – smooth, non-brittle finish permits easy insertion without danger of breaking when distorted*
- *Less trauma – greater accessibility of suction catheter permits removal of secretions at a faster rate*

4228	Sitz Bath with Attachment	10/Cs
4229	Male Urinals with Graduated Markings	50/Cs
4230	Fracture Bed Pans	50/Cs
4231	Stackable Bed Pans	50/Cs
4232	Nuns Cap Specimen Collector, White	100/Cs

A complete line of plastics used throughout nursing homes, hospitals, home care, assisted living facilities and more. Quality construction and universal color scheme complements mainstream facilities' decor.

- *Ideal for containing fluids and routine care*
- *Easy to read graduated markings for measuring output*
- *Rolled rims make carrying easier with fewer spills*
- *Smooth, high-gloss finish for easy cleaning*

4219

34 oz. Carafe with Lid and Flexible Straw

- *Insulated, double wall thermal design*
- *Lid can be completely sealed for maximum infection control*
- *Single patient use*
- *Spill proof*

4220

32 oz. Pitcher with Lid

- *Pours water while holding ice back*
- *Textured handle and rim for easy grip*

4221

Bedside Trays

- *Ridges help prevent sticking, keeping carafe and pitcher bottom dry*

4222

Denture Cup with Lid

- *8 oz. capacity*
- *Translucent, snap-on lid keeps dentures safe and clean*
- *Disposable*

4224

9" Graduated Emesis Basin, 500 cc

- *Rounded edges and flexible design facilitate handling*
- *Graduated in 100 cc increments*
- *Single patient use*

4226

5 qt. Wash Basin, Round

- *Made from high-quality, durable polypropylene*
- *Smooth edges serve as built-in handles*

4227

7.4 qt. Wash Basin, Rectangular

- *Large soaking area ideal for bed baths and limb soaking*
- *Rolled rim makes carrying easy*

4228

Sitz Bath with Attachment

- *Fits standard toilets*
- *Lightweight, durable and easy to clean*
- *Basin capacity is 2 US quarts (1.9L)*

4229

Male Urinal with Graduated Markings

- *Easy to grasp, notched handle won't fill during use*
- *Lid attachment loops onto handle, acts as odor shield*
- *Graduated up to 1,000 cc/34 fl. oz.*

4230

Fracture Bed Pan

- *Designed for immobile and fracture patients*
- *Ideal for use as a female urinal*
- *Heavy-duty molded plastic helps resist odors*

4231

Stackable Bed Pan

- *Fits standard toilets*
- *Units nest together to maximize storage space*
- *Single patient use*

4232

Nuns Cap Specimen Collector, White

- *Fits securely on standard toilets*
- *Easy to read for quick visualization and measurement of specimens*
- *Pour spout discards specimens safely and quickly*
- *Graduated up to 1,000 cc/34 fl. oz.*

Disposable 3 oz. Cups

Reorder No.	Description	Quantity
4235	3 oz. Cups	25/100/Cs

Translucent cup made from high impact polypropylene that is both sturdy and shatterproof, yet flexible.

- *Versatile, general purpose drinking cups*
- *Used in hospitals, dentistry, home care and office*
- *Rolled lip for easy separation*
- *Ribbed in the center for easy handling and sturdy construction*
- *Fits in any 3 oz. dispenser*

Dimensions:

Top Diameter: 2 ¼"
Bottom Diameter: 1 ½"
Height: approx. 2 ¼"

Medicine Cups

Reorder No.	Description	Quantity
4252	1 oz.	50/100/Cs
4258	1 oz. (Economy)	50/100/Cs

Manufactured of strong flexible virgin polypropylene material with easy-to-read gradations on all sides.

Measurements on cups:

4252

- *Fluid Ounces (⅛, ¼, ½, ¾, 1)*
- *Drams (1-8 in 1 dram increments)*

MPR Bags

Reorder No.	Description	Quantity
5801	Infant MPR, Infant Mask, Std Elbow w/PMP, 600 cc/ml Bag	6/Cs
5804	Pediatric MPR, Pediatric Mask, Std Elbow w/PMP, 2,500 cc/ml Bag	6/Cs
5807	Adult MPR, Adult Med Mask, Std Elbow w/ PMP, 40"(1m) Corrugated Tube	6/Cs
5808	Adult MPR, Adult Med Mask, Std Elbow w/PMP, 2,500 cc/ml Bag	6/Cs

- *All MPR Bags come with 10 ft. (3m) of oxygen tubing*
- *Single patient MPR Bags have a clear housing which allows for visualization of patient valve*
- *Bag design and texture facilitates grip and manageability*
- *Quality components combine to provide a wide variety of configurations*
- *All components are not made with natural rubber latex*

Description – A large rubber-like bag with oxygen tubing, duck-bill valve and exhalation port, reservoir tube or reservoir bag and other components.

Objective – To initiate resuscitation and life support measures during the possibility or presences of cardiopulmonary arrest.

Settings – MPRs may be used in a wide variety of settings including hospitals, clinics, extended care facilities and ambulances.

Flow Rates – Flow rates are adjusted according to patient needs. Oxygen concentrations of 100% are desired but less may be achieved due to different factors, which may include improper mask fit or inadequate flow rate.

5801, 5808 HCPCS: A9270

Personal Care

Hard Sole Slippers

Put Your Best Foot Forward

Reorder No.	Description	Quantity
2170	Non-Skid Slippers – S, Red	12/Cs

4282	L, 1,000ml w/valve	4/12/Cs

- *Durable, yet soft and comfortable, vinyl construction provides optimum performance and comfort*
- *Valve provides simple non-drip closure*
- *Anti-reflux valve prevents urine backflow*
- *Easy-to-use straps provide secure attachment to legs*
- *Sterile fluid pathway; not reusable*
- *Not made with natural rubber latex*

Urethral Catheterization Trays – Sterile

Reorder No.	Description	Quantity
4925	Urethral Catheterization Tray	20/Cs

Includes:

- **1** Graduated Collection Basin
- **1** Underpad
- **1** 14 Fr. Red Rubber Catheter
- **1** Lubricating Jelly
- **3** PVP Swabsticks
- **1** Fenestrated Drape
- **1** Cuffed Powder-Free Vinyl Exam Gloves
- **1** Specimen Container with Lid and Label

- *For convenient and economical catheterization procedures*
- *Components packed within tray to assure components are available in proper sequence during procedure*

Urethral Catheterization Tray

Reorder No.	Description	Quantity
4928	Urethral Catheterization Tray – Sterile	20/Cs

Includes:

- **1** 14 Fr. (male) intermittent catheter
- **1** 1,000 cc outer basin tray
- **1** Pair of vinyl gloves
- **1** Waterproof drape (blue, 45×42 cm)
- **1** 4 oz. specimen cup
- **1** Fenestrated drape (white, 45×42 cm)
- **1** Lubricating jelly packet (3g)
- **3** Povidone-Iodine swabsticks
- **1** Patient label

- *Straight tip*
- *Medical grade PVC; not made with natural rubber latex*
- *Offset polished eyelets to maximize urine flow*

4932-4970 HCPCS: A4338

Intermittent Catheters – Sterile

Dynarex Intermittent Straight Catheters effectively manage bladder drainage in cases of urinary retention, bladder obstruction, paralysis or loss of sensation caused by spinal cord injury. They are available in male and female styles, and are for single use only. Regular draining of the bladder will protect the patient's kidneys from infection and will lower the risk of distending the bladder.

- *Straight tip*
- *Not made with natural rubber latex*
- *Color-coded for size visualization*
- *Medical grade PVC*
- *Offset polished eyelets to maximize urine flow*
- *Individually sealed in easy-open, peel-strip sterile packages*

Reorder No.	Description	Quantity

4277 – Gravity Bag Set – with 1,200 cc enteral bag, drip chamber, tubing, roller clamp, feeding set adapter with protective cap. Same as the pump bag set except this is not designed for use with a pump. There is no tubing connector. Formula flows by means of gravity.

DynaSpike Enteral Delivery Pump Set

Reorder No.	Description	Quantity
4272	DynaSpike Enteral Delivery Pump Set	30/Cs

Safe and Simple Enteral Delivery System

- *Locking piercing spike, drip chamber*
- *Precision silicon tube*
- *Roller clamp*
- *Feeding set adapter with protective cap*
- *These sets provide the components needed to open the nutritional bag, connect the tubing to the pump and the feeding set adapter to the feeding tube.*
- *Not made with natural rubber latex*

Diagnostics

Ultrasound Gel

Medical Imaging Assistance

Reorder No.	Description	Quantity
1241	Ultrasound Gel – 8.5 fl. oz., Blue	12/Cs
1243	Ultrasound Gel – 1.3 Gallon, Blue	4/Cs
1245	Ultrasound Gel – 8.5 fl. oz., Clear	12/Cs
1247	Ultrasound Gel – 1.3 Gallon, Clear	4/Cs

- *Electroconductive gel media used to facilitate the ultrasonic pulsed echo imaging system*
- *Acoustically correct for a broad range of frequencies used*
- *Aqueous, will not stain clothing or damage transducers*
- *Can be used with any equipment that requires a aqueous, conductive gel (for external use only)*
- *Fragrance free*
- *Hypoallergenic, bacteriostatic, non-irritating*
- *Non-greasy*
- *Easy refill*

A NEW Look and Better Feel!

DynaLube® Lubricating Jelly – Sterile

Reorder No.	Size	Quantity
1250	2.7 g Packet	12/144/Cs
1251	5 g Packet	12/72/Cs
1252	2 oz. Tube, Flip-Top Cap	6/12/Cs
1254	4 oz. Tube, Flip-Top Cap	6/12/Cs

- *Water soluble*
- *Eliminates spotting and streaking, ensuring water sheets off instruments, leaving them dry.*
- *Provides lubrication for hinged instruments, and therefore facilitates smooth articulation of delicate instruments and sliding surfaces.*
- *Enhances and protects the internal parts of the handpiece.*
- *Intended for medical purposes to lubricate body orifices and facilitate entry of diagnostic or therapeutic devices.*

1250-1251 HCPCS: A4332; 1252-1254 HCPCS: A4402

Fall Monitoring Systems for Facility or In-Home Care

**Batteries Not Included*

Universal Bed / Chair and Personal Alarms

Reorder No.	Description	Quantity
7081	Universal Bed / Chair Alarm	10/Cs
7082	Personal Alarm	10/Cs

- *Constructed of a durable thick plastic casing with special protective outer cover*
- *Included stainless steel clip for mounting to chair or bed frame*
- *Audible & visible Low Battery* alert*
- *1 year warranty – registration card included*

Universal Bed / Chair Alarm

- *Designed for use with Dynarex Bed and Chair Sensor Pads*
- *Side mounted HOLD button gives the caregiver 30 seconds to reposition the resident without activating the alarm*

Personal Alarm

- *Sounds alarm when magnetic dome is pulled from socket; attaches to resident's clothing*
- *Adjustable string length allows the patient/resident to move normally*

Bed and Chair Sensor Pads

Reorder No.	Description	Quantity
7083	Bed Pads – 30"×5"	30/Cs
7084	Bed Pads – 30"×10"	30/Cs
7085	Chair Pads – 14"×10"	30/Cs

- *Designed for use with the Dynarex Universal Bed/Chair Alarm*
- *Bed Sensor Pads available in two sizes: 30"×5" and 30"×10" – Chair Sensor Pad is 14"×10"*
- *Alarm is triggered when pressure is removed from the pad*
- *PVC material is antimicrobial and fire retardant*
- *Spill and incontinence resistant*
- *Reliable & durable*
- *1 year warranty – registration card included*

Alert Caregivers of Resident Activity

Finger Pulse Oximeters

Reorder No.	Description	Quantity
7088	Finger Pulse Oximeter	10/Cs
7090	Pediatric Finger Pulse Oximeter	10/Cs

- *Calculates how much oxygen is carried in blood and monitors saturation of a patient's hemoglobin*
- *Convenient noninvasive measurement method to detect hypoxia*

**Batteries Not Included*

Handheld Pulse Oximeter

Reorder No.	Description	Quantity
7089	Handheld Pulse Oximeter	1/Cs

The Handheld Pulse Oximeter is intended for continuous monitoring, spot-checking of functional pulse oxygen saturation (%SpO_2) and pulse rate (PR) of adult and pediatric patients in nursing homes, hospitals and home care.

- *Rubber grip design offers special protection*
- *Compact, lightweight design for simple, one-hand operation*
- *High brightness LED displays SpO_2, pulse rate and pulse bar*
- *Continuous operation for up to 30 hours*
- *Meets the standard for conscious sedation*
- *Up to 99 patients' ID and 72-hour record storage*
- *Visual & audio alarm, low battery alarm*
- *Data transfer to PC for storage or printing*
- *Convenient 2 AA batteries (not included)*
- *Comes with one year limited warranty*
- *Available for purchase as 1 unit per case*

Blood Pressure Kit

Trust in Dynarex for Patient Care

Reorder No.	Blood Pressure Kit	Quantity
7099	Dual-Head Stethoscope, Adult Sphygmomanometer	10/Cs
7100	Single-Head Stethoscope, Adult Sphygmomanometer	10/Cs

Dynarex Blood Pressure Kits include a single- or dual-head stethoscope and an adult sphygmomanometer. The stethoscope is sleek, durable, and lightweight with a non-chill, anodized chest piece. It features 22" PVC tubing with an adjustable binaural. The 300 mmHg sphygmomanometer is chrome-plated, easy to read and has an air-release valve. The stethoscopes, single or dual, are available separately, as are the sphygmomanometers in a range of cuff sizes.

7099-7100 HCPCS: A4660

Single or dual head stethoscopes

Sphygmomanometers

Reorder No.	Description	Quantity
7104	Infant (Under 1 year old), 10"×2"	10/Cs
7105	Toddler (1-4 years old), 13"×2"	10/Cs
7106	Child (5-9 years old), 15"×2.8"	10/Cs
7107	Adult, 20"×5.5"	10/Cs
7108	Thigh, 24.4"×6.9"	10/Cs
7109	XL, 28.3"×8.3"	10/Cs

- *Accurate blood pressure readings with state-of-the-art aeroid sphygmomanometer*
- *Chrome-plated, precision crafted, easy to read 300 mmHg with air release valve*
- *Ideal for the cost-conscious healthcare provider looking for quality and affordability*
- *Not made with natural rubber latex*

7104-7109 HCPCS: A4663

Stethoscopes

Reorder No.	Description	Quantity
7110	Single Head Stethoscope	50/Cs
7111	Dual Head Stethoscope	50/Cs

- *Sleek, durable and lightweight*
- *High quality, non-chill anodized chest piece*
- *22" PVC flexible tubing with adjustable binaural*
- *Not made with natural rubber latex*
- *One of many advantages to the dual head chestpiece is to enable the auscultation of a wide range of frequencies*
- *Dual head ideal for both adult and pediatric patients, getting around bandaged areas and carotid assessment*

For Ultrasound Imaging Systems

Transducer Covers

Reorder No.	Description	Quantity
1248	Transducer Covers	20/100/Cs

- *Durable, high-quality, rolled latex covers*
- *Provides a snug fit to all types of endorectal and endovaginal transducers*
- *Helps to protect from cross-contamination in endocavity applications*

Microscope Slides

Reorder No.	Description	Quantity
4170	Clear – 3"×1"×1 mm	20/72/Cs
4171	Frosted – 3"×1"×1 mm	20/72/Cs

- *Made of premium, quality sheet glass with ground corners*
- *Provides consistent results for all laboratory tests*
- *Frosted slide coating retains most laboratory marking methods*
- *Writing surface eliminates the need for paper labels and relabeling of slides*

See The Difference

Corrosion resistant, precleaned, lint-free and ready to use. Suitable for all medical applications at economical prices.

Microscope Cover Glass

Reorder No.	Description	Quantity
4176	22 mm×22 mm, 0.12 - 0.17 mm Thickness	5/10/1 oz./Cs
4177	22 mm×22 mm, 0.17 - 0.25 mm Thickness	5/10/1 oz./Cs

- *Uniform thickness and superior flatness*
- *Excellent clarity*
- *Processing techniques result in superior cleanliness*
- *Packaged in 1 ounce quantities*
- *Cover glass comes in a crush-resistant plastic box*

Dental & Tattoo Products

Half Chair Covers

Reorder No.	Description	Quantity
2151	28"×24"	3/225/Cs

- *Clear chair sleeve slides on and off easily*
- *Eliminates need for headrest cover*
- *Reduce use of disinfectants*

Full Chair Covers

Reorder No.	Description	Quantity
2152	29"×80"	3/125/Cs

- *Clear chair sleeve slides on and off easily*
- *Eliminates need for headrest cover*
- *Reduce use of disinfectants*

Headrest Covers

Reorder No.	Description	Quantity
2153	Plastic, M, 9½"×11"	12/250/Cs
2154	Plastic, L, 9½"×14"	12/250/Cs

- *Lays flat on headrest and provides impervious barrier between the patient and the headrest*
- *Protects headrest on operatory chair from damaging effects of surface disinfectants, such as cracking or fading*

Tray Sleeves

Reorder No.	Description	Quantity
2159	L, 11⅝"×16"	6/500/Cs
2160	M, 10½"×14"	6/500/Cs

- *Easy to put on and take off*
- *Eliminate contamination and make cleanup effortless*
- *Made of clear plastic which is easy to apply and easier to dispose of*

Machine Bags

Reorder No.	Description	Quantity
2162	0.035 mm, 130 mm×130 mm (5"×5")	16/500/Cs

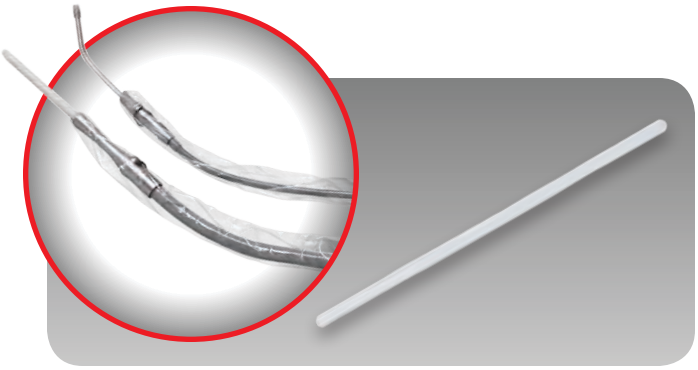

- *Protect your machine from cross-contamination and splatter*
- *These covers easily slip over your machine*

Plastic Cord Covers

Reorder No.	Description	Quantity
2161	0.035 mm, 610 mm×53 mm (24"×2")	12/250/Cs

- *Easy-to-use barrier prevents cross-contamination*
- *Provide protection when working across the body or on large areas where the cord may come in contact with the tattooed area*
- *Individual covers, open on both ends*
- *2" in width*
- *Eliminate contamination and make cleanup effortless*

Bottle Covers

Reorder No.	Description	Quantity
2164	0.035 mm, M, 6"×8"	20/500/Cs
2165	0.035 mm, L, 6"×10"	20/500/Cs

- *Covers entire spray or wash bottle, preventing cross-contamination*
- *Transparent, for easily identifying the liquid level in the bottle*
- *Excellent for keeping equipment clean and germ-free*

Drinking Cups

Reorder No.	Description	Quantity
4236	5 oz. Drinking Cup – White	20/50/Cs
4237	5 oz. Drinking Cup – Blue	20/50/Cs
4238	5 oz. Drinking Cup – Mint Green	20/50/Cs
4239	5 oz. Drinking Cup – Mauve	20/50/Cs
4240	5 oz. Drinking Cup – Lavender	20/50/Cs

Plastic 5 oz. drinking cups have a unique design for added strength. Choose from five contemporary colors.

- *Double rolled lip for easy separation*
- *Can be used with any 5 oz. dispenser*

Barrier Film

Reorder No.	Description	Quantity
4488	Barrier Film Roll – Clear	8/1,200/Cs
4489	Barrier Film Roll – Blue	8/1,200/Cs

Eliminates cross-contamination while working with handheld equipment. Covers most surface areas.

- *Apply to almost any surface without worrying about leaving sticky residues behind*
- *Provides all-purpose cleanliness by protecting difficult-to-clean areas*
- *Comes in a 4"×6" perforated roll*
- *Tear off single or multiple sheets as needed*
- *Comes in clear and blue*

Dental Bibs
