

Sani-Tab™ Chain-Free Patient Towels

Eliminate the use of bib clips and chains

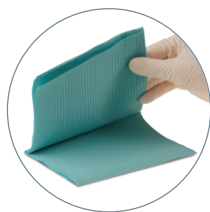

Dental bib clips and chains have been shown to pick up dangerous microorganisms from skin, saliva and plaque, presenting a potential source of cross-contamination in the dental operator.

Reduce the risk with Sani-Tab™ Chain-Free Towels, the only patient towel with patented adhesive tabs, eliminating the need for bib chains and clips. Sani-Tab™ Towels maximize patient comfort while saving time and money.

- **Easy to use**—Simply position towel anywhere on the patient and apply pressure to the tab
- **Dependable coverage**—Stays in place, unlike bibs using clips or other disposable towel holders
- **Versatile**—Can be placed high on patient to protect clothing
- **Horizontal embossing pattern**—Manages moisture flow and helps protect patient clothing
