DISPOSABLES

NEW PRODUCT

"Works Better"

Features a unique "GLIDER" loader/sealer allowing you to quickly and easily "glide" your PSP's into the envelope. Upon peeling off the loader's tab the envelope practically seals itself. When the x-rays are completed the center seam allows you to tear open the envelope and start the developing process without ever touching the plate.

"Lasts Longer"

The perfect barrier envelope to protect your patients and staff from cross contamination and your phosphor plates from bodily fluids such as blood and saliva.

"Costs Less"

Can be used with virtually any system on the market while saving you money.

Glider Barrier Envelopes

The perfect barrier envelope to protect your phosphor plates from cross contamination and bodily fluids such as blood and saliva. Features a unique "GLIDER" loader/sealer allowing you to quickly and easily "glide" your PSP's into the envelope. Upon peeling off the loader's tab the envelope practically seals itself. When the x-rays are completed the center seam allows you to tear open the envelope and start the developing process without ever touching the plate. Can be used with virtually any system on the market.
