endodontic research and education
through the American Association
of Endodontists Foundation.*

How the best perform

Since 1908 Hu-Friedy has been putting the highest quality, innovative dental products in the hands of dental professionals worldwide. And today as one of the world's leading dental instrument companies, we continue our commitment to advancing dental performance by supporting these products with world class service, support, education and peer communities. We're committed to making sure the best perform that way.

Hu-Friedy. How the best perform.

HU-FRIEDY'S ENDODONTIC INSTRUMENTATION

Hu-Friedy's comprehensive line of endodontic instruments and accessories give you versatile options to meet all of your clinical needs. Many of our instruments, especially those made for microsurgical applications, were developed in conjunction with leading global Key Opinion Leaders who are on the cutting-edge of clinical research, design and application. If you are looking for exceptional instrument design, quality and reliability, and unmatched customer service, choose Hu-Friedy's Endodontic Instruments.

The Challenge

The sensitive nature of endodontic procedures necessitates instruments with exceptional response, integrity and durability to accommodate a wide variety of endodontic procedures – from routine root canals to complex microsurgery.

The Solution

Hu-Friedy instruments are individually handcrafted to precise specifications from quality materials to ensure superior performance, longevity and reliability. Instrument design combined with proprietary materials and incomparable workmanship result in instruments with unique balance, working leverage and control. They function as a seamless extension of the practitioner's skill.

The Result

High-quality Hu-Friedy instrumentation provides unsurpassed clinical efficiency, so practitioners can deliver superior outcomes and focus on the patient. The result is outstanding patient care.

A Worldwide Focus on Quality

Hu-Friedy is based in Chicago and has been privately owned by the Saslow family since 1959. Today we employ over 600 talented and committed employees in more than 25 countries – including our production facilities in Chicago and Shanghai, China; our distribution centers in Niles, Illinois, and Tuttingen, Germany; and our additional offices in Japan, Germany, Italy and the Netherlands. Worldwide, our products are sold in more than 95 countries.

Our mandate for excellence is company-wide. Only at Hu-Friedy will you find more than 300

artisans meticulously handcrafting instruments in a modern manufacturing facility. Only here are employees personally responsible for the quality of their work and each other's. We believe that our success is the result of both our company's commitment to excellence and the dedication and pride of our highly skilled instrument craftspeople, management and staff.

A Legacy of Innovation

Since the Hu-Friedy Manufacturing Company was founded in 1908 by Hugo Friedman, we have proudly collaborated with private practitioners, dental schools and leading educators to develop

new technologies, innovative designs and quality products that are synonymous with value and performance. Because of our reputation for industry leadership, dental experts have been turning to Hu-Friedy with their cutting-edge ideas for over a hundred years.

From our inception, we have been committed to education and developing relationships with students. At the core is our commitment to helping our customers perform at their best and to improve lives through better dentistry. From student to practitioner, Hu-Friedy is proud to be an important part of our customers' professional lives.

How the best perform

ENDODONTIC MICROSURGERY

Hu-Friedy has an extensive line of apical hand instruments. This includes curettes, explorers, condensers, burnishers and mirrors. Many were developed in conjunction with Hu-Friedy Key Opinion Leader, Professor Marwan Abou-Rass and other leading global innovators.

Mirrors Curettes/Excavators Explorers Filling Instruments Condensers/Pluggers Combo Plugger/Burnisher Retractors

Hu-Friedy has a large assortment of microsurgical mirrors to choose from. They are made from highly polished stainless steel, come in round or rectangular shapes, are single or double-ended, and are offered in a variety of sizes. Select from single instruments or choose the mirror you want and team it up with a handle of your choice. The rhodium-coated front surface mirrors offer sharp, scratch- and distortion-free visibility.

MICROSURGICAL MIRRORS

FRONT SURFACE RHODIUM-COATED

- 2 x 7 mm
- 3 x 9 mm
- 2.5 mm
- 3 mm
- 5 mm
- 2 Medium Rectangular | MM2
- Small Round | MMRS
- 2 x 7 mm
- 7 mm x 2 mm | MM7
- 4 x 12 mm
- 4.5 mm
- 3 x 9 mm
- 9 mm x 3 mm | MM8
- Micro Mirror* Round 5 mm | MM5

VELVART

- 3 x 6 mm
- 3.5 mm
- 2 x 6 mm
- 3.5 mm
- 1 Velvart | MMVEL1
- 2 Velvart | MMVEL2

*Handle sold separately. MBW wrench required for assembly.

Handles of the MM1, MM2 and MM3 are marked with one, two or three bands for easy identification.

MICROSURGICAL ABOU-RASS CURETTES/EXCAVATORS

Curettes in straight and angled forms, and useful sizes. Straight curettes provide controlled straight line access and good visibility; use angled forms to access difficult or confined areas.

STRAIGHT

ANGLED

DOUBLE-ENDED

**Explorer
| MEX1**
A popular, basic apical explorer used to initiate the tracking groove in the root tip, and for general exploration and probing.

**1 Abou-Rass
| MAR-EX1**
A versatile explorer with two different, useful and sharp working ends.

**3 Abou-Rass
| MAR-EX3**
A probe with one blunt flat and one round end; excellent for taking measurements, especially the direct root length of the apex.

SINGLE-ENDED

**2 Abou-Rass
| MAR-EX2**
A single-ended bone file styled explorer used to enlarge the opening made by MAR-EX1 into the cortical bone to allow drainage.

**4 Abou-Rass
| MAR-EX4**
Its straight, sharp working end is ideal for penetrating small osseous defects in cortical bone.

**5 Abou-Rass
| MAR-EX5**
A 45° angled explorer used to check dentinal defects, such as root caries, root resorption and fracture lines.

**6 Abou-Rass
| MAR-EX6**
A 90° angled, sharp-pointed explorer useful for detecting apical foramen and apical seal quality.

*The terms "Curettes" and "Excavators" are interchangeable.

MICROSURGICAL EXPLORERS

Hu-Friedy's large selection of microsururgical explorers are available in various designs and working ends, giving the clinician useful options for exploration and treatment. From the basic and popular MEX1, to Professor Abou-Rass' excellent assortment of explorers, they all provide the balance, fine design and construction that practitioners need for careful yet thorough apical exploration.

RETROFILLING

Hu-Friedy has several double-ended apical filling instruments to choose from, including the recently launched filling instrument developed in conjunction with Dr. Bertrand Khayat, a Hu-Friedy Key Opinion Leader.

Khayat
| PF18ABK6
This versatile Khayat filling instrument has one angled and one straight spatula end. Useful for complex, deep apical treatments.

Left Apical
| MRFL
The left of two paired instruments that are used for filling, condensing and burnishing.

Right Apical
| MRFR
The right of two paired instruments that are used for filling, condensing and burnishing.

PLUGGERS

These pluggers give the clinician very different working ends for enhanced maneuvering and versatility.

The Khayat and Velvart pluggers are useful for deep canal condensation, and can be used together for this purpose. Designed in conjunction with Dr. Bertrand Khayat and Dr. Peter Velvart.

Khayat
| PLGBK6

Velvart
| PLGVEL56

Designed in conjunction with Professor Abou-Rass, these double-ended instruments are perfect for retrofill applications. They are double-ended with one round and one oval tip. Round working tips produce "pot hole" preparations while oval tips make "isthmus" designs.

*The terms "Condensers" and "Pluggers" are interchangeable.

MICROSURGICAL CONDENSERS/BURNISHERS

These versatile double-ended instruments combine a condenser on one end and a ball burnisher on the other end. The plugger ends feature universal, right and left designs and come in small, medium and large sizes.

STRAIGHT

ANGLED

MICROSURGICAL ABOU-RASS BURNISHERS

This family of ball burnishers is available in straight and angled forms. Straight designs provide direct, straight access with ease and visibility. The angled forms have long shanks for optimal reach and visibility of the working end.

ALLAM

A set of seven ergonomically-designed retractors with a common handle designed to reduce hand fatigue and enhance visibility. Contact ends facilitate placement over significant structures by retracting the entire flap and providing a large contact surface. Developed in conjunction with Dr. Charbel Allam.

| TRMGRIF

ARENS

A wide and straight retractor set designed in conjunction with Dr. Donald Arens, the anterior retractor provides concurrent flap and lip retraction; while its posterior partner provides simultaneous flap and cheek retraction.

1 Anterior Arens Tissue Retractor
| TRARENS1

2 Posterior Arens Tissue Retractor
| TRARENS2

CURETTES

This double-ended curette is excellent for use in apical curettage. Available in round or oval designs, Hu-Friedy surgical curettes feature sharp working ends for efficient debridement or curettage.

| CL856
Handle: #6
| CL85
Handle: #522 (not pictured)

SURGICAL

Many of Hu-Friedy's surgical instruments are used for endodontic applications, especially when apical treatment is required. This includes needle holders, scissors, surgical curettes, periosteals and retractors. Here is a sample of some of our most popular surgical instruments used for endodontic treatments.

NEEDLE HOLDERS

Micro Castroviejo Straight Diamond Dusted 7" (18 cm)*
| NHDPV
European handle design
Microsurgical needle holders have a lock to ensure that the needle is firmly secured. This allows the needle to be guided through coarse gingival tissue with controlled grip pressure.
Recommended suture sizes: 6-0, 7-0, 8-0.

Perma Sharp Crile-Wood 6" (15 cm)*
| NH5038
Featuring a ratchet-design and carbide inserts, this needle holder securely grasps the needle and provides enhanced comfort and control when suturing.
Recommended suture sizes: 3-0, 4-0, 5-0, 6-0.

Perma Sharp Needle Holder, Castroviejo Curved, Round Handle 5" (14 cm)*
| NH5021RC
Combines a curved beak with the maneuverability and comfort provided by its round handle.
Recommended suture sizes: 5-0, 6-0, 7-0

NEW!

Perma Sharp Needle Holders feature tungsten carbide inserts with a ground pyramidal profile to assure a firm, positive needle grip. Rotation of needle and/or slipping of suture material is virtually eliminated.

*Handle sold separately.

*Pictured at 50%.

PERIOSTEALS

Our periosteals are perfect for retracting and reflecting the mucoperiosteum during apical surgery.

9 Molt
| P9
Handle: #522
The P9 periosteal has small and large ends for reflection of the flap.

Buser
| PPBUSER
Handle options: #6, #522
A spade-paddle shaped periosteal for the reflection of tissue. The spear-end is used to initiate reflection of the papilla, and the paddle-end is used to continue apical retraction.

PERMA SHARP® SUTURES

Perma Sharp sutures are specifically designed for dentists, with a fine point geometry for smooth penetration and laser-drilled needles to help reduce tissue disruption. Manufactured from 300 Series Stainless Steel, the ideal alloy for dental suture needles, they provide a strong, sharp needle and increased ductile strength. Perma Sharp sutures ensure efficient and reliable soft tissue closure.

Here are some suggested sutures for apical applications:

4-0 Silk, Black C-19, 18"

| PSN734S

5-0 Polyester, D-14, 18"

| PSN7773L

5-0 Polypropylene, C-4, 18"

| PSN8245P

SUPER-CUT SCISSORS

Hu-Friedy scissors are available in Super-cut, Perma Sharp and Standard Series. Super-cut scissors feature a cutting blade which is honed and serrated to create razor sharpness, while the opposing blade is finished with fine serrations to avoid tissue slippage. Our extensive selection includes microsurgical, suture, Crown and Gold, bandage and general surgery scissors.

14 LaGrange Double-Curve 4-1/2" (11.5 cm)

18 Iris Curved/Delicate 4-1/2" (11.5 cm)
| S18
1 serrated blade
| S18SC
Super-Cut with 1 serrated blade (pictured)

RETRACTORS

Hu-Friedy has a wide assortment of cheek and tissue retractors for reflecting mucoperiosteal flaps, cheeks, lips and tongue away from the surgical site.

NEW!

Cawood-Minnesota Cheek/Tissue Retractor
| CRM2
The CRM2 is longer than a CRM and has more curvature on the handle design for enhanced comfort and control. The pointed, yet blunt working end allows for secure retraction while not obscuring the field of view.

Farabeuf Retractor Twin Set
| TRFB
Its straight lines and flat blades make this simple design easy to clean, sterilize and store. The twin set offers flexibility and versatility in selecting which retractor to use based on patient, treatment and clinician preference.

SCALPEL HANDLES

Our family of scalpel handles provide the maneuverability needed for effective blade cuts and incisions.

No. 5
| 10-130-05
A finely balanced, pen-like scalpel handle that easily rotates and maneuvers in difficult to reach areas with fingertip control.

Mini Blade Scalpel/Mirror Handle Stainless Steel
| SHDPV
Made of surgical grade stainless steel, its sleek design includes a built-in blade tightener for added convenience.

TISSUE PLIERS

NEW!

Perma Sharp Tissue Pliers
| TP5072
Hu-Friedy tissue pliers are made from surgical grade stainless steel and are available in plain, 1x2 or multiple teeth. The TP5072 design includes the advantages of "plain" inserts in limiting soft tissue trauma with the ergonomic benefits of a sculpted handle.

EXPLORERS

Hu-Friedy's endodontic explorers are made from a special blend of alloy which provides the flexibility, strength, tactile sensitivity and resilience clinicians need when exploring and assessing the treatment site. They are available in several double-ended designs and handles.

EXCAVATORS

Hu-Friedy's endodontic excavators feature extended-length shanks and are meticulously handcrafted from the highest grade stainless steel. They help the clinician access the pulp chamber for easy and efficient removal of dentin. The result is a superior clinical outcome and improved efficiency.

ENDODONTIC ACCESSORIES

In addition to critical procedural instruments such as spreaders, pluggers and rubber dam clamps, endodontic accessories, the “staples” of the office, are available to complete the line-up of Endo Essentials.

SPREADERS

Hu-Friedy manufactures a wide variety of spreaders, all handcrafted from the finest stainless steel to precise specifications. Choose from NiTi spreaders, ISO sized spreaders with color coded handles for easy identification, heat carriers, and a variety of other popular spreaders. Our spreaders help the clinician gain access into the most difficult canals for optimal compaction of filling material during lateral condensation.

ISO SIZED SPREADERS*

ISO sized spreaders are color-coded for identification and convenience.

ISO Spreaders have an ISO color-coded band on the handle for ease of identification during usage: #30-Blue, #40-Black, #50-Yellow, #60-Blue

*D1=Diameter of instrument 1 mm from the tip. These measurements (i.e., .30) appear next to the tips of the instruments.

NICKEL TITANIUM ENDODONTIC SPREADERS*

Nickel Titanium, or NiTi, points provide these spreaders with extra flexibility and "memory" while the ergonomic, color-coded Satin Steel handles provide maximum comfort, control and easy identification. Choose from nine popular designs.

HEAT CARRIERS*

*D1=Diameter of instrument 1 mm from the tip. These measurements (i.e., .30) appear next to the tips of the instruments.

PLUGGERS

When performing vertical condensation, choose from ISO-sized anterior or posterior options, Machtou, the Glick Blade/Plugger or other options. These pluggers are handcrafted to exact specifications using the finest materials.

PLUGGERS*

ISO SIZED PLUGGERS*

ISO Pluggers have an ISO color-coded band on the handle for ease of identification during usage: #30-Blue, #40-Black, #50-Yellow, #60-Blue.

*D1=Diameter of instrument 1 mm from the tip. These measurements (i.e., .30) appear next to the tips of the instruments.

LUKS

*D1=Diameter of instrument 1 mm from the tip. These measurements (i.e., .30) appear next to the tips of the instruments. Marked at 5 mm intervals to assess penetration depth.

ANTERIOR

Anterior condensers are 7 mm longer than posterior condensers.

HU-FRIEDY'S INSTRUMENT MANAGEMENT SYSTEM CYCLE

Optimal infection control and prevention are facilitated by the use of tools that allow for improved efficiency and safety. Instrument integrity is further enhanced by the use of Hu-Friedy's Instrument Management System (IMS). IMS allows clinicians to move instruments from cleaning through chairside without touching or damaging the instruments.

Electropolish:
Provides a protective sheet against corrosion and a professional appearance

Durable Silicone Rails:
Specifically designed to safeguard instruments from damage during processing

Smooth Round Corners and Slotted Edges:
Increase drainage and reduce drying time

Efficient Hole Pattern:
Protects instruments from protrusion while allowing for enhanced cleaning and sterilization

Functional Accessory Area:
Includes built-in needle cap holder and winged syringe slot for optimized positioning (available in some models)

Positive Locking Mechanism:
Provides a visual indication that cassette is locked for safety

Signature Series® Cassettes are made of long-lasting, low-maintenance stainless steel. Soft, colored silicone rails securely hold instruments throughout the processing cycle. Available in over 100 different sizes, configurations and color options, and can be specialized to meet your needs.

Signa-Stat Cassette – 12 Instruments

Holds 12 instruments with an accessory area. Fits in SciCan STATIM or the Midmark M3 autoclave.
Exterior Dimensions: 6.5" x 10.5" x 1.25"
(165 mm x 267 mm x 32 mm)

Red	IM8120
Gray	IM8121
White	IM8122
Orange	IM8123
Yellow	IM8125
Purple	IM8126
Blue	IM8128
Green	IM8129

Large Cassette – 16 Instruments

Holds 16 instruments with an accessory area.
Exterior Dimensions: 8" x 11" x 1.25"
(203 mm x 280 mm x 32 mm)

Red	IM4160
Gray	IM4161
White	IM4162
Orange	IM4163
Yellow	IM4165
Purple	IM4166
Blue	IM4168
Green	IM4169

Available in 8" x 10.5" x 1.25" size (IM416xQ) to fit unique ultrasonic tanks and available in a 12 instrument version with a larger accessory area (IM412x).

IMS SIGNATURE SERIES CLIPS

Signature Series Air/Water Clip | IM1005

Designed to fit large or small Signature Series Cassettes, and can be permanently installed.

Signature Series Double-Decker Cassette Air/Water Clip | IM1006

Designed to fit Double-Decker Signature Series Cassette. Signature Series IMS clips can be permanently installed in your cassettes and can be permanently installed.

Signature Series Cassette Barcode Clip* | IMS-CABL

Dimensions: .75" x 2.26" x .067"
(19 mm x 57.4 mm x 1.7 mm)

Snap-on Barcode for outside of Cassettes. Contains laser marked barcode to be used for identification and tracking purposes. Compatible with standard barcode reader. Follows HIBC barcode standards. Lasermark tested to last more than 800 sterilization cycles.

*Pictured at 75%.

IMS PARTS BOX

Designed to keep small items such as rubber dam clamps and matrix band retainers organized during the sterilization process.

IMS Large Parts Box

| **IMS-1273**

Exterior Dimensions: 3.5" x 1.12" x 1"
(89 mm x 29 mm x 25 mm)

IMS Small Parts Box

| **IMS-1271**

Exterior Dimensions: 1.56" x 1.25" x 1"
(40 mm x 32 mm x 25 mm)

IMS ENDODONTIC STAND

Hinged, double-lid stand holds endodontic files and reamers. Lid is etched with a ruler to measure stop positions easily from either direction.

IMS Endodontic Stand, Holds 24

| **IMS-1275**

Exterior Dimensions: 2.6" x 2.25" x 1.2"
(67 mm x 57 mm x 30 mm)

IMS Endodontic Stand, Holds 48

| **IMS-1275D**

Exterior Dimensions: 2.6" x 2.25" x 1.2"
(67 mm x 57 mm x 30 mm)

AIR WATER SYRINGE CLIPS

Designed to fit large or small Resin Cassettes. Clip holds air/water syringe tip securely in place throughout cleaning and sterilization.

IMS Large Resin Clip

| **IMS-1278**

IMS Small Resin Clip

| **IMS-1279**

IMS-1278

IMS BUR CUSHIONS

A hollow, rectangular, silicone base with a stainless steel lid that is designed to hold burs securely in place during cleaning and sterilization. Hollow design allows drainage and proper cleaning.

IMS Bur Cushion, Short Lid

| **IMS-1372S**

Holds 12 burs.
Exterior Dimensions: 3.3" x 1.3" x 0.9"
(84 mm x 33 mm x 22 mm)

IMS 1/2 Bur Cushion, Short Lid

| **IMS-1372SH**

Holds 6 burs.
Exterior Dimensions: 1.75" x 1.3" x 0.9"
(44 mm x 33 mm x 22 mm)

IMS Bur Cushion, Tall Lid

| **IMS-1372T**

Holds 12 burs.
Exterior Dimensions: 3.3" x 2.44" x 0.9"
(84 mm x 62 mm x 22 mm)

IMS 1/2 Bur Cushion, Tall Lid

| **IMS-1372TH**

Holds 6 burs.
Exterior Dimensions: 1.75" x 2.44" x 0.9"
(44 mm x 62 mm x 22 mm)

HINGED INSTRUMENT CLIPS

Secure scissors, hemostats and air/water syringe tips in lid of cassette.

Instrument Clips, 2-Hinged

| **IM1000**

Instrument Clips, 2-Hinged

| **IM1002**

NEEDLE CAP HOLDER

2 Needle Cap Holders

| **IM1001**

Needle Cap Holders

| **IM1003**

Combination Pack**

| **IM1004**

**6 snap-in needle cap holders and 6 snap-in hinged instrument clips. Maintains cap in upright position for one-handed needle recapping.

KEY OPINION LEADERS

Key Opinion Leaders' names are recognizable and their work is renowned. Hu-Friedy is honored to be in close association with Key Opinion Leaders, and it is a pleasure to present them to you as individuals full of life, character and vision. Hu-Friedy strives to supply our Key Opinion Leaders of all specialties with the most current offerings and information on our products and services. Being affiliated with outstanding dental professionals only helps to strengthen Hu-Friedy in our mission:

To improve lives through dentistry – smile after smile.

PROFESSOR MARWAN ABOU-RASS

ABOU-RASS MICROSURGICAL ENDODONTIC KIT*

The instruments selected by Professor Marwan Abou-Rass for his new kit include those few that he relies on for clinical, education, and research activities. The entire collection of "MAR" instruments, which he uses in his work, can be found in the Microsurgical section of Endo Essentials.

A Professor Emeritus of the University of Southern California, Senior Academic Consultant at the Riyadh Military Hospital and General Director of the Prince Abdul-Rahman Advanced Dental Institute (PAADI), in Riyadh, Saudi Arabia, this Key Opinion Leader was instrumental in developing our apical product line.
