

Slim Flush Cut & Hold Distal End Cutter
GET **CLOSER** TO A BETTER RESULT

Hu-Friedy[®]

IMPROVED ACCESS. GREATER VISIBILITY.

With the Slim Flush Cut & Hold instrument, Hu-Friedy has combined artistry and function to produce a product that is uniquely capable of adding value to the Orthodontist's ability to deliver optimal patient care. Some of the key benefits include:

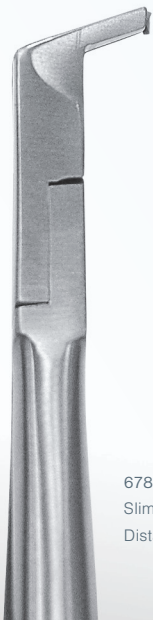

- **Improved access and enhanced visibility** made possible by a working end that has been reduced by 50% as compared to 678-111
- **Optimized patient comfort and safety and significant time savings,** delivered through a true flush cut & hold instrument that helps decrease emergency stick appointments and helps improve efficiency by eliminating the need for a cotton roll or piece of gauze to catch the cut portion
- **Additional flexibility on archwire selection** given the instrument's ability to cut up to .021" x .025"
- **Steam sterilizable**
