## Quala Dental Products preventives

## **Dental Floss**

## **Teflon Dental Floss**

Made with PTFE, the floss slides much more easily into interproximal spaces and will not shred as readily against sharp teeth or tight contacts. The PTFE floss has a much greater breaking strength than standard nylon dental floss.

Shred resistant nylon floss for effective removal of plaque between teeth.

## **Nylon Dental Tape**

Slim, flat design provides a greater surface area for effective plaque removal. Tape slides easily between teeth.
