Medicom® Pride in Protection.

# DentiCare™ Duraflor® Halo

NEW  
FLAVOR  
COMBINATION

Introducing exciting new flavor combinations from Medicom for DentiCare and Duraflor Halo, along with a refreshed look and feel.

Offer your patients the very latest in flavor technology evolution, from the brand you trust: Medicom.

Healthcare professionals are focused on the fight against caries and take great pride in providing their patients the very best fluoride and varnish products available. However, patients are primarily interested in treatments that taste great; in fact consumers and professionals alike tell us that taste is a top driver of patient compliance and brand preference.

**NEW FLAVOR COMBINATIONS:** Inspired by the fusions of flavor seen across the food industry, Medicom is pleased to introduce three new blends of exclusive flavors designed to satisfy taste buds, while providing the protection and results you expect from DentiCare fluorides and Duraflor Halo varnish. Our new blends start with refreshing mint and combine it with three different, delicious extracts, to create exciting new combinations. These new taste combinations are based on the latest in flavor technology and are designed to enhance the customer experience by evolving the taste of fluorides.

**CinnaMint™** a sizzling blend of cinnamon and mint

**MelonMint™** a sweet blend of melon and mint

**CitrusMint™** a refreshing blend of citrus and mint

**DYE FREE:** Medicom has designed the new flavors of DentiCare across the Pro-Gel, Pro-Foam and Pro-Rinse lines to be Dye-Free. The natural, clear appearance is great for patients with aversion or allergies to dyes, and for patients who have undergone whitening procedures. These new flavors offer a natural, dye free option with maximum taste appeal, for fluoride treatment patients will love.

**NEW LOOK:** Medicom will refresh the full DentiCare and Duraflor product range with an updated, modern look and feel that more accurately reflects high quality, showcases the range of flavors and highlights the effective formulations that perform as promised. Designed with refreshing, inspirational colors to showcase the amazing range of new and existing flavors, DentiCare and Duraflor inspire confidence and great taste.

**QUALITY:** As always, Medicom is driven by a commitment to quality, so DentiCare and Duraflor Halo preventive products are made from the highest quality ingredients and are designed to ensure the prevention that you can always count on.

## New Flavor Fusion | Dye-Free | New Look | Trusted Quality

### Medicom® Duraflor® Halo

#### 5% Sodium Fluoride White Varnish

This fluoride application is recommended for the treatment of hypersensitive teeth and to seal dentinal tubules for cavity preparation. It dries to a natural white colour to ensure patient compliance and is delivered in a convenient "peel and apply" package to eliminate mess and risk of cross contamination. Sweetened with Xylitol, patients will enjoy each of the 5 great tasting flavors.

1015-CINM32	CinnaMint	1015-CINM250	CinnaMint
1015-MM32	MelonMint	1015-MM250	MelonMint
1015-CM32	CitrusMint	1015-CM250	CitrusMint
0.5mL x 32 units/box			

The natural choice  
Duraflor Halo is free of gluten, tree nuts, peanuts, sesame, corn, shellfish, penicillin, egg, soy and dairy products

Also available in the following proven flavors in boxes of 32 or 250 units:  
■ Spearmint ■ Wild Berry

### Medicom® DentiCare™ Pro-Gel

#### 2.72% Topical Sodium Fluoride Gel (1.23% Fluoride Ions)

Prevent and protect against caries with this fast and highly effective fluoride treatment. It reduces treatment time and increases efficiency by delivering 12,300 ppm in 60 seconds. Patients will appreciate the smooth, thixotropic consistency which reduces overflow along with the risk of gagging or ingestion.

Recommended for children and adults without composite and porcelain dental restorations as well as crowns or bridges.

10021-CINM	CinnaMint	10021-MM	MelonMint
10021-CM	CitrusMint		
16.23 fl oz			

Also available in the following proven flavors:  
■ Bubble Gum ■ Grape ■ Orange ■ Strawberry  
■ Cherry ■ Mint ■ Raspberry

#### 2% Neutral Sodium Fluoride Gel

Safe and effective for patients with composite or porcelain restorations, the gentle neutral pH reduces the risk of dulling or etching restorations. Patients will appreciate the smooth, thixotropic consistency which reduces overflow along with the risk of gagging or ingestion.

Recommended for patients with cosmetic and porcelain restorations as well as patients suffering from root caries or tooth sensitivity.

10023-CINM	CinnaMint	10023-MM	MelonMint
10023-CM	CitrusMint		
16.23 fl oz			

Also available in the following proven flavors:  
■ Mint ■ Raspberry ■ Strawberry

## Fighting caries has never tasted, nor looked, so good

### Medicom® DentiCare™ Pro-Rinse

#### 2% Neutral Sodium Fluoride Oral Rinse

Delivers dependable, effective performance with a 2 minute application time (60 second rinse x 2). The rinse is an easy-to-use and cost effective alternative to fluoride trays. It is also ideal for patients who have an intolerance to trays and prefer an oral rinse.

Recommended for patients with cosmetic and porcelain restorations as well as patients suffering from root caries or tooth sensitivity.

10044-MM	MelonMint
64 fl oz	

Also available in the following proven flavors:  
■ Berry ■ Mint

### Medicom® DentiCare™ Pro-Foam

#### 2.72% Topical Fluoride Foam (1.23% Fluoride Ions)

Fast and highly effective fluoride treatment which reduces treatment time and increases efficiency by delivering 12,300 ppm in 60 seconds. The stable, airy foam spreads easily, delivers excellent coverage and remains in the tray to reduce mess along with the risk of gagging and ingestion.

Recommended for children and adults without composite and porcelain dental restorations as well as crowns or bridges.

10037-CINM	CinnaMint	10037-MM	MelonMint	10037-CM	CitrusMint
4.4 oz					

Also available in proven dye-free flavors:  
■ Bubble Gum ■ Mint ■ Raspberry  
■ Grape ■ Orange ■ Strawberry
