SURFACE CARE

YOUR PARTNER IN INFECTION PREVENTION, EDUCATION AND PATIENT CARE

INTRODUCTION

INNOVATIVE DELIVERY SYSTEMS & SOLUTIONS

For 30 years, Professional Disposables International, Inc. (PDI) has pioneered the development, testing, manufacturing and marketing of pre-moistened wipes as the **Optimum Delivery System** for infection prevention and control as well as patient care.

With trusted brands including Sani-Cloth®, Sani-Surface®, Sani-Dex® ALC, Sani-Hands® for Kids, Hygea®, PDI®, Nice' N Clean®, and Chlorascrub™, PDI continues to be the leading single source supplier for hospitals and alternate care sites.

PDI is your Partner In Infection Prevention, Education and Patient Care, serving the healthcare market through hospitals, physician and dental offices, emergency medical services, long-term and home health care, blood banks, laboratories, schools, day care and occupational health clinics throughout the United States and Worldwide.

2

EVIDENCE-BASED SOLUTIONS FOR INFECTION PREVENTION AND CONTROL

Fighting deadly infections and reducing cross-contamination are worldwide problems. Working with prominent healthcare institutions and industry thought leaders, PDI has developed convenient and effective product solutions for hard surface disinfection, hand hygiene and topical skin antisepsis.

Our ability to provide evidence-based solutions for infection control is a direct result of:

- Conducting extensive product efficacy and safety studies
- Educating healthcare professionals on best practices
- Working with healthcare professionals to monitor outcomes

CONTENTS

COMMITMENT TO EDUCATION

Clinical Specialists are part of the PDI team of experts. They conduct in-service and continuing education training sessions at customer sites and assist in educating healthcare professionals on ways to reduce the risk of infection transmission.

The PDI Customer Advisory Group, comprised of end-user customers from a variety of healthcare settings, helps keep PDI's marketing and development teams current on Specialty Market requirements and market best practices.

THE OPTIMUM DELIVERY SYSTEM

Pre-moistened wipes offer the most versatile and efficient method for the delivery of liquids to surfaces whether for personal hygiene, cleansing, disinfection or treatment. By combining the optimum substrate material and dispensing package with the appropriate formulation and friction (from wiping action) a more effective result is obtained than by using sprays, liquids or dry wipes alone. For healthcare professionals on the go, the portable delivery system is critical and convenience encourages compliance.

ANTISEPTICS

For pre-injection and pre-operative skin preparation, PDI offers a variety of top quality skin antiseptics to meet the needs of the healthcare professional.

CHLORASCRUB™ SWAB & SWABSTICKS

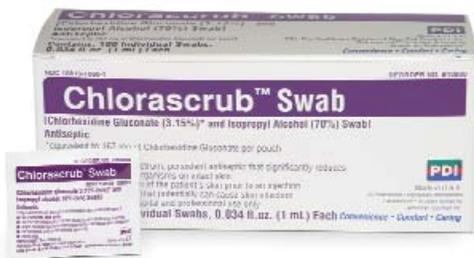

Long-Lasting, Broad Spectrum Protection for Effective Antisepsis

Chlorascrub™, the first and only 3.15% Chlorhexidine Gluconate (w/v) and 70% Isopropyl Alcohol (v/v) solution, guards against pathogens like most bacteria, fungi/yeast and viruses¹, making it the ideal choice for pre-operative and pre-injection skin preparation.

SWAB

- Pre-injection skin preparation²
- Achieves $>2 \log_{10}$ in 30 seconds and maintains $2 \log_{10}$ bacterial reduction for at least 24 hrs.
- Easy-to-use prep pad design covers a 6.25 square inch treatment area

A. Chlorascrub™ Swab for pre-injection skin preparation

SWABSTICK

- Pre-operative and pre-injection² skin preparation
- Achieves $>3 \log_{10}$ in one minute and maintains a $>3 \log_{10}$ bacterial reduction for at least 24 hours
- Square, flat-shaped applicator design allows for better skin contact particularly in moist skin areas
- Peel-apart³ packaging ideal for use in sterile environments

MAXI SWABSTICK

- Pre-operative and pre-injection skin preparation
- Achieves $>3 \log_{10}$ in one minute and maintains a $>3 \log_{10}$ bacterial reduction for at least 24 hours
- Round, flat applicator design for larger area pre-operative skin preparation
- Peel-apart³ packaging ideal for use in sterile environments

B. Chlorascrub™ Swabstick for pre-operative and pre-injection skin preparation

¹ Mayhall G.C., *Hospital Epidemiology and Infection Control*, 3rd Ed. 2004 p.1494

² A 15 second application plus 30 second dry time with the Chlorascrub Swab on the forearm resulted in a 2.7 log₁₀ reduction of microbial count; thus, exceeding FDA requirements of 1(one) log₁₀ reduction for pre-injection prepping. The Chlorascrub™ Swabstick contains the same antiseptic solution as the Swabs.

³ Chlorascrub™ Swabstick and Maxi Swabstick peel-apart in non-kit package. Tear open package if taken from kit.

C. Chlorascrub™ Maxi Swabstick for pre-operative and pre-injection skin preparation

ANTISEPTICS

ALCOHOL PREP PADS AND SWABSTICKS

For Topical Antisepsis Prior To Injection

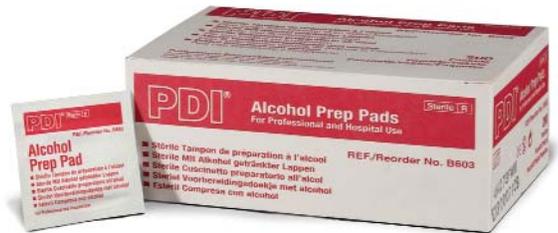

PDI® Alcohol Prep Pads and Swabsticks provide rapid-acting skin antisepsis in non-sterile and sterile formulas. Also available, PDI® Acetone Alcohol with 10% acetone for easy defatting and skin drying.

- **Manufactured according to current FDA regulations, GMP and USP requirements**
- **Meets the highest bacteriological standards**
- **Contains 70% Isopropyl Alcohol**

ANTISEPTICS

PDI® PVP IODINE PREP PADS, SWABSTICKS, OINTMENT & SOLUTION

Antimicrobials For Proven Antisepsis

PDI® Povidone-Iodine provides longer germicidal activity than ordinary Iodine solution and is non-irritating and virtually non-stinging for better patient comfort. Perfect for venipuncture, I.V. starts, kidney dialysis, pre-op prep, and other minor invasive procedures.

PADS & SWABSTICKS

- Prep Pads (I and J) saturated with a 10% USP Povidone-Iodine prep solution (equivalent to 1% available Iodine) to provide proven antisepsis
- Scrub Swabsticks (N and O) saturated with a 7.5% Povidone-Iodine scrub solution with detergents (equivalent to 0.75% available Iodine)
- Scrubs away dead skin, dirt, and oil so prep pads and swabsticks can be more effective

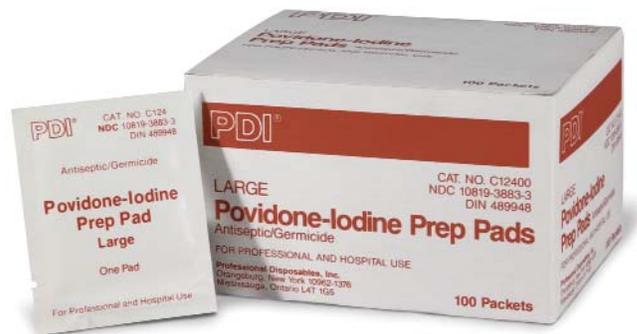

SOLUTION & OINTMENT

- Solution and ointment (P and Q) kills gram positive and gram negative bacteria, fungi and yeasts
- Solution (P) contains Povidone-Iodine solution USP 10% (1% available Iodine) to apply as a paint or wet soak
- Ointment (Q) contains 0.05 oz (1.5 g) (1% available Iodine) in a water soluble topical ointment

SPECIALTY PRODUCTS

Uniquely Designed for the Special Situations of Daily Patient Care

In the world of patient care, it is the little things that make patients more comfortable and the health care professionals' job easier. PDI's Specialty Products do just that.

G. Io-Gone™ Iodine Remover Pads

- Removes extraneous iodine stains from skin & clothing
- Quickly dissolves residual iodine color more completely than alcohol
- Contains Isopropyl Alcohol 50% & Sodium Thiosulfate 3%

I. Castille Soap Concentrate

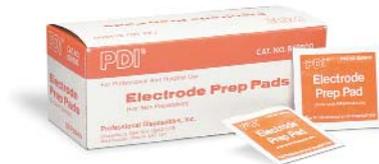

- Ideal for colostomy care and soft soap enemas
- Excellent for shampooing
- Mild, gentle, detergent cleanser
- Contains 0.30 fl. oz. solution of potassium soaps, glycerin and sequestering agents

F. Adhesive Tape Remover Pads

- Effectively removes tape and residue from skin
- Reduces patient discomfort
- Contains C11-12 Isoparaffin, Isopropyl Alcohol, Petroleum Naphtha, Isopropyl Palmitate, Isopropyl Myristate, Isopropyl Stearate

H. Electrode Prep Pads

- Cleanses skin in preparation for electrode placement
- Pumice removes excess skin oil for better electrode-to-skin contact and longer interface-free contact
- Contains 70% Isopropyl Alcohol and pumice

J. Sterile Lubricating Jelly – 2.7 gm

- Each packet sterilized to prevent contamination
- Will not get tacky – maximizes patient comfort
- Water soluble – easily washes off
- FDA 510K
- Contains Glycerin, Methyl and Propylparabens

MORE SPECIALTY PRODUCTS, PAGE 18 >>

M-N. Sani-Cloth® Bleach Wipe

A Stabilized Bleach Formula Equivalent to a 1:10 Dilution

- Cleans and deodorizes non-porous surfaces and equipment
- Low-linting cloth design
- Easy tear-open packets reduce the risk of splashing

DISPENSING

The ability to position PDI Sani-System® Wipes where they promote usage and compliance by healthcare workers, patients and visitors is a key factor to reducing cross-contamination and infection in any setting. Easy to install Sani-Brackets® are just another way Sani-System® convenience extends beyond the contents of every disposable wipe canister.

SANI-BRACKET® WALL & MOBILE EQUIPMENT ATTACHMENT SYSTEM

G-N. Sani-Bracket®

So versatile – place Sani-System® disposable wipes on:

- Walls
- IV poles
- Gurneys
- Anywhere they are needed most
