|       | H319: Causes serious eye irritation.   |  |                            |   |
|       | Precautionary Statements   |  |                            |   |
|       | P264: Wash hands thoroughly after handling.  |  |                            |   |

P280: Wear protective gloves, clothing and eye/face protection.

P301 + P330 + P331: If swallowed, rinse mouth. Do NOT induce vomiting.

P303 + P361 + P353: If on skin (or hair), remove all contaminated clothing. Rinse skin with water.

P363: Wash contaminated clothing before reuse.

P310: Immediately call a Poison Center or doctor/physician.

P305 + P351 + P338: If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing until pH of tears is 7.

## Trade Name: Etch-Rite 38% Phosphoric Acid Etching Gel

| 3.0 | Composition   |   |  |  |   |  |
|-----|---|---|--|--|---|--|
| 3.1 | Chemical characterization of the preparation Phosphoric acid in a gel matrix.   |   |  |  |   |  |
| 3.2 | .2 Hazardous ingredients  |   |  |  |   |  |
|     | CAS<br>Number   | Name of the<br>Ingredient   | Concentration  | Classification per 67/548/EEC  | Classification per Regulation<br>(EC) No.1272/2008 (CLP). |  |

| 4.0 | First Aid Mea   | First Aid Measures  |  |  |   |  |
| 4.1 | General Inform  | nation  | May cause burns or irritation to eyes, skin or mucous membranes. Acute effects may be delayed. Show this safety data sheet to medical personnel. Get medical attention in case of uncertainty. |  |   |  |
| 4.2 | Eye Contact   |   |  | Remove contact lenses. Keep eyelids apart and flush with running water for 15+ minutes or until pH of tears is 7. Get medical attention. |   |  |
| 4.3 | Skin Contact  |   | Immediately flush skin with running water for 15 minutes. Get medical attention for persistent irritation or burns.  |  |   |  |
| 4.4 | Ingestion   |   | Rinse mouth with water. Do not induce vomiting. Give water to dilute. Get immediate medical attention. Never give anything by mouth to an unconscious person.                                  |  |   |  |
| 4.5 | Inhalation  | halation Move to fresh air. If necessary, administer oxygen and/or artificial respiration and seek medical attention. |  |  | oxygen and/or artificial respiration                      |  |
| 4.6 | Precautions for first responders Ventilate the area. Wear safety glasses, gloves and lab coat.  |   |  | loves and lab coat.  |   |  |
| 4.7 | Information for   | r physicians  |  |  |   |  |
|     | Symptoms  |   |  | n, pain or redness in eyes, mucous<br>e delayed so continued monitoring c  |   |  |
|     | Hazards   |   |  | ause burns or irritation to eyes, sk<br>may be delayed.  | xin or mucous membranes. Acute                            |  |
|     | Treatment   |   |  | Same as above under First Aid.   |   |  |
| 5.0 | Fire Fighting Measures  |   |  |  |   |  |
| 5.1 | Suitable extinguishing media         Not a fire hazard. Use water spray to keep fire-exposed containers           Extinguish fire with agent suitable for surrounding fire. |   |  |  |   |  |
| 5.2 | Extinguishing   | media to avoid  | None   |  |   |  |
| 5.3 | Special expos   | ure hazards in a fire   | Phosphoric acid can react with metals to liberate hydrogen, a flammable gas. Combustion by-products include oxides of phosphorus.  |  |   |  |
| 5.4 | Special protec<br>fighters  | tive equipment for fire   | A self-contained breathing apparatus.  |  |   |  |
| 6.0 | Accidental Release Measures   |   |  |  |   |  |
| 6.1 | Personal prec   | autions.  | Wear   | Wear chemical splash goggles and gloves.   |   |  |
| 6.2 | Environmenta  | l precautions   |  | Avoid releasing large quantities into the environment as phosphoric acid may affect pH of water or soil.                                 |   |  |

## Trade Name: Etch-Rite 38% Phosphoric Acid Etching Gel

| 6.3        | Method for clean up                                    | For small quantities (as in this product): Wear safety glasses, lab coat and gloves. Absorb or wipe up spill with dry paper towels. Place all material in covered chemical waste container for disposal. Flush spill area with water. |  |
|------------|--|---|--|
| 7.0        | Handling and Storage                                   |   |  |
| 7.1        | Handling   | For use by dental professionals only. Wear safety glasses and gloves; wash hands after use. Avoid unnecessary exposure. Follow good hygiene practices. Protect soft tissue from etchant during intraoral procedures.                  |  |
| 7.2        | Storage  | Remove applicator tip after use. Keep tightly capped in original container. Store at cool room temperature. Avoid extremes of temperature (>27°C/80°F, <5°C/40°F), alkalis, sulfites, sulfides and most metals.                       |  |
| 7.3        | Specific uses  | Dental etchant  |  |
| 8.0        | Exposure Controls / Personal Protection                |   |  |
| 8.1<br>8.2 | Exposure limit values<br>Exposure controls             | TWA: 1 mg/m <sup>3</sup> TLV: 3 mg/m <sup>3</sup>   |  |
| 8.2.1      | Occupational exposure controls                         | No special equipment required under normal conditions of use of this product in the quantity provided.  |  |
| 8.2.1.1    | Respiratory protection                                 | Good general ventilation is sufficient to control airborne vapors.  |  |
| 8.2.1.2    | Hand protection  | No special requirements other than surgical gloves.   |  |
| 8.2.1.3    | Eye protection   | No special requirements other than safety glasses.  |  |
| 8.2.1.4    | Skin protection  | No special requirements. Good personal hygiene and safety practices, wearing a lab coat will protect from unnecessary exposure to etchant.  |  |
| 8.2.1.5    | Other controls   | Emergency eye wash fountain should be available. Protect soft tissue from etchant during intraoral procedures. Wash hands after use.  |  |
| 8.2.2      | Environmental exposure controls                        | Avoid releasing large quantities of phosphoric acid into the environment as phosphoric acid may affect pH of water or soil.   |  |
| 9.0        | Physical and Chemical Properties                       |   |  |
| 9.1        | Appearance / Color                                     |   |  |
| 9.1.1      | Color / Physical state                                 | Medium blue, thixotropic gel.   |  |
| 9.1.2      | Odor   | Mild, characteristic  |  |
| 9.2        | Important health, safety and environmental information |   |  |
| 9.2.1      | pН   | рН 1  |  |
| 9.2.2      | Boiling point  | 135°C   |  |
| 9.2.3      | Flash point  | Not combustible   |  |
| 9.2.4      | Flammability (solid, gas)                              | Not combustible   |  |
| 9.2.5      | Explosive properties                                   | Not applicable  |  |
| 9.2.6      | Oxidizing properties                                   | Not determined  |  |
| 9.2.7      | Vapor pressure   | 2.933 mbar / ld: C  |  |
| 9.2.8      | Specific gravity                                       | 1.380   |  |
| 9.2.9      | Solubility in water                                    | Complete  |  |

|        |  | •   |  |
|--------|--|---|--|
| 9.2.10 | Partition coefficient                                | Not determined  |  |
| 9.2.11 | Viscosity  | Not determined  |  |
| 9.2.12 | Vapor density  | Not determined  |  |
| 9.2.13 | Evaporation rate                                     | Not determined  |  |
| 10.0   | Stability and reactivity                             |   |  |
| 10.1   | Conditions to avoid                                  | Not applicable  |  |
| 10.2   | Materials to avoid                                   | Avoid contact with materials such as sulfides and sulfites that could<br>release toxic gases. Avoid strong alkalis because high heat or<br>reaction can generate steam. Avoid most metals because<br>phosphoric acid can react to liberate hydrogen, a flammable gas. |  |
| 10.3   | Hazardous decomposition products                     | Avoid contact with materials such as sulfides and sulfites that could<br>release toxic gases. Avoid strong alkalis because high heat or<br>reaction can generate steam. Avoid most metals because<br>phosphoric acid can react to liberate hydrogen, a flammable gas. |  |
| 10.4   | Further information                                  | Stable under normal conditions of use and storage.  |  |
| 11.0   | Toxicological information                            |   |  |
| 11.1   | Acute toxicity                                       | Not toxic   |  |
| 11.2   | Irritation and corrosiveness                         | Corrosive. May cause burns or irritation to eyes, skin, mouth, throat<br>or gastrointestinal tract. Not expected to be an inhalation hazard<br>unless product is misted or heated at high temperatures.   |  |
| 11.3   | Sensitization  | Not applicable.   |  |
| 11.4   | Sub-acute, sub-chronic, prolonged toxicity           | None known.   |  |
| 11.5   | Carcinogenicity, Mutagenicity, Reproductive Toxicity | Not considered a carcinogen, mutagen, teratogen or reproductive toxin.  |  |
| 11.6   | Empirical data                                       | Not available   |  |
| 11.7   | Clinical Experience                                  | Using phosphoric acid etchants to prepare teeth for bonding procedures is a well-established (more than 20 years), industry-accepted, dental procedure. Etching enamel with phosphoric acid is safe and effective treatment in the hands of a dental professional.    |  |
| 12.0   | Ecological Information                               |   |  |
| 12.1   | Ecotoxicity  | No specific information available. Use according to good working practices. Avoid release into the environment as it may cause pH variation.  |  |
| 13.0   | Disposal Considerations                              |   |  |
| 13.1   | Regulations  | Follow all local and national government regulations in disposing material or contaminated packaging.   |  |
| 14.0   | Transport Information                                |   |  |
| 14.1   | UN Number  | 1805  |  |
|        | Technical name                                       | Phosphoric acid   |  |
