Model Preparation

► Prepare a cast from the impression with a commercial specialized stone plastered/Desinfektiermittel einsetzen. Die Dauer richtet sich nach den Angaben des Herstellers. Eine zu lange Desinfektion kann zur Schädigung der Abformung führen.

► To avoid introducing bubbles into the model, briefly pre-rinse with water and dry with air. Do not use surfactants as these impair the quality of polyether impressions and are not necessary.

► Polyether impressions may be silver-coated, whereas copper-coating is not feasible.

► Acetone can be used to remove the adhesive from impression trays.

Cleaning

► Paste that has not set may be removed with ethanol or by rinsing with water and soap.

► The working and setting times of the individual products must be strictly observed.

Notes

► At temperatures below 18°/64°F: the viscosity of the pastes will increase to such an extent that there may be mixing problems in the unit. Store the pastes for 1 day at a minimum temperature of 18°/64°F: they can then be processed without loss of quality.
Direct exposure to sunlight and damp storage conditions may damage the impression, see Storage.
► Polyether impressions should not be exposed to solvent-containing liquids under any circumstances. Swelling and imprecise molding may result.
► 3M ESPE polyether materials may only be combined with 3M ESPE polyethers. The working and setting times of the individual products must be strictly observed.

Storage and Stability

Store the products at 18–25°/64–77°F. **Do not refrigerate!**
Do not use after the expiration date.
Store impressions in a dry place away from light at temperatures below 38°/98°F.

Customer Information

No person is authorized to provide any information which deviates from the information provided in this instruction sheet.

Warranty

3M Deutschland GmbH warrants this product will be free from defects in material and manufacture. 3M Deutschland GmbH MAKES NO OTHER WARRANTIES INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. User is responsible for determining the suitability of the product for user's application. If this product is defective within the warranty period, your exclusive remedy and 3M Deutschland GmbH's sole obligation shall be repair or replacement of the 3M Deutschland GmbH product.

Limitation of Liability

Where prohibited by law, 3M Deutschland GmbH will not be liable for any loss or damage arising from this product, whether direct, indirect, special, incidental or consequential, regardless of the theory asserted, including warranty, contract, negligence or strict liability.
