

# Medicom®

# Duraflor® Halo

# DentiCare®

*Lead the fight against caries with the complete line of preventives from the brand you trust*

As a healthcare professional, you are focused on the fight against caries and take great pride in providing your patients with the very best fluoride and varnish products available. As always, Medicom is driven by a commitment to quality, so DentiCare® and Duraflor® Halo preventive products are made from the highest quality ingredients and are designed to ensure the prevention that you can always count on.

# Medicom® DentiCare®

The most  
comprehensive  
line of fluorides

*For all your preventive needs, use DentiCare regularly, the complete line of preventive products including prophylactic paste, fluoride gel and foam whose proven results are recognized throughout the dental community.*

 = GLUTEN FREE  
 = DYE-FREE

## DentiCare® Pro-Gel

**60-second application**  
(1.23% Fluoride Ions)

Prevent and protect against caries with this fast and highly effective fluoride treatment. It reduces treatment time and increases efficiency by delivering 12,300 ppm in 60 seconds. Patients will appreciate the smooth, thixotropic consistency, which reduces overflow along with the risk of gagging or ingestion.

*Recommended for children and adults without composite and porcelain dental restorations as well as crowns or bridges.*

 MelonMint  (dye-free)  
 Bubble Gum  Mint  Raspberry  
 Cherry  Orange  Strawberry  
 Grape

## DentiCare® Pro-Rinse

**2% Neutral Sodium Fluoride**  
**Oral Rinse**

Delivers dependable, effective performance with a 2-minute application time (60-second rinse x 2). The rinse is an easy-to-use and cost effective alternative to fluoride trays. It is also ideal for patients who have an intolerance to trays and prefer an oral rinse.

*Recommended for patients with cosmetic and porcelain dental restorations as well as patients suffering from root caries or tooth sensitivity.*

 MelonMint  (dye-free)  
 Berry  
 Mint

## DentiCare® Pro-Gel

2% Neutral Sodium  
Fluoride Gel

Safe and effective for patients with composite or porcelain restorations, the gentle neutral pH reduces the risk of dulling or etching restorations. Patients will appreciate the smooth, thixotropic consistency, which reduces overflow along with the risk of gagging or ingestion.

*Recommended for patients with cosmetic and porcelain dental restorations as well as patients suffering from root caries or tooth sensitivity.*

■ Mint ■ Raspberry ■ Strawberry

## DentiCare® Pro-Gel

1.1% Neutral Sodium  
Fluoride Gel

Esthetically safe, clear and dye-free formula that is compatible with cosmetic or porcelain restorations and perfect for pre/post bleaching home care. Patients will appreciate the smooth, thixotropic consistency, which reduces overflow along with the risk of gagging or ingestion.

*Recommended for patients with xerostomia (dry mouth), high risk of decay, tooth sensitivity or acid intolerance.*

■ Mint □ Unflavored

## DentiCare® Pro-Rinse

0.12% Chlorhexidine  
Gluconate Rinse

Ideal for professional use and in conjunction with home care for gingivitis, periodontitis, oral irrigation and post-operative healing. Now sweetened with Xylitol, the enhanced light mint flavour reduces any bitter aftertaste and enhances patient satisfaction.

■ Mint

## DentiCare® Pro-Polish

Prophylaxis Paste

This low splatter formula offers fast stain removal, high polishing ability and is easy to rinse. Delivered in convenient unit doses to reduce the risk of cross-contamination or in an economic jar alternative.

■ Raspberry ■ Mint ■ Bubble Gum  
■ Cherry  
Grit options: Fine, Medium, Coarse

## DentiCare® Pro-Foam

**Topical Fluoride Foam**  
(1.23% Fluoride Ions)

Fast and highly effective fluoride treatment which reduces treatment time and increases efficiency by delivering 12,300 ppm in 60 seconds. The stable, airy foam spreads easily, delivers excellent coverage and remains in the tray to reduce mess along with the risk of gagging and ingestion.

*Recommended for children and adults without composite and porcelain dental restorations as well as crowns or bridges.*

■ Bubble Gum    ■ Mint    ■ Raspberry  
■ Grape    ■ Orange    ■ Strawberry

## DentiCare® Pro-Foam

**2% Neutral Sodium  
Fluoride Foam**

Safe and effective for patients with composite or porcelain restorations, the gentle neutral pH reduces the risk of dulling or etching restorations. The stable, airy foam spreads easily, delivers excellent coverage and remains in the tray to reduce mess along with the risk of gagging and ingestion.

*Recommended for patients with cosmetic and porcelain dental restorations as well as patients suffering from root caries or tooth sensitivity.*

■ Mint    ■ Raspberry

## DentiCare® Pro-Freeze

**Topical Anesthetic Gel**  
(18% Benzocaine, 2% Tetracaine)

This unique topical anesthetic is a water-based gel that is easy to spread and offers rapid absorption and immediate onset. The 2% tetracaine allows for extended working time and longer lasting patient comfort.

■ Bubble Gum    ■ Mint    ■ Strawberry  
■ Cherry    ■ Raspberry

## DentiCare® Pro-Tray

**Disposable Fluoride Tray**

Save time with these convenient and comfortable-fit foam trays, created with a typodont design to reduce overflow and provide even coverage of fluoride to all surfaces.

# Medicom® Duraflor®

## Effortless application for long-lasting results

Lead the fight against caries and treat hypersensitive teeth with Medicom Duraflor Sodium Fluoride Varnish. Users will appreciate the smooth consistency for ease of application and patients will love the great tasting flavours.

## Duraflor® Halo

5% Sodium Fluoride White Varnish

Duraflor Halo dries to a natural white colour to ensure patient compliance and provides the highest allowable fluoride concentration for the ideal solution to prevent and protect against cavities. Sweetened with Xylitol, patients will enjoy each of the great tasting flavours.

*Duraflor Halo is free of gluten, tree nuts, peanuts, sesame, corn, shellfish, penicillin, egg, soy and dairy products.*

■ Spearmint    ■ Wild Berry    ■ MelonMint

## Duraflor®

5% Sodium Fluoride Varnish

A classic fluoride treatment available in a convenient, unit dosing as well as an economic tube format. Features the highest concentration of fluoride available along with fast and easy application.

■ Bubble Gum
