

HANDLER **MODEL 86A** AVENGER

Hazardous Containment

MADE IN THE U.S.A SINCE 1920

HANDLER's AVENGER is THE device that makes it efficient and easy to disinfect after EVERY polishing application, so you can be compliant.

- Manufactured of sturdy resin material with no hardware or secured fixtures
- Bright white resin material makes for better viewing and illumination
- Removable acrylic shield is coated to prevent scratching
- Hood & bottom pan are separate with no hardware for easy and fast cleaning
- The spacious cavity makes it comfortable and ergonomic for any user
- A 3" dimple in the rear that can be cut off to add suction
