

# HANDLER

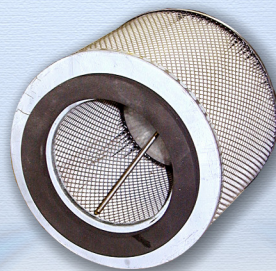

## HANDLER ADDS CARTRIDGE FILTRATION!

**N**ow you can have it your way when you buy a Handler dust collector or polishing unit.

**H**andler introduces cartridge collection technology to their full line of polishing units and larger dust collectors. Handler dust collectors, the standard of dental, jewelry and industrial trades has added cartridge filtration. Whether you are purchasing a stand up polishing unit or 3HP central unit, you can specify the type of filtration you prefer; fiberglass filters, shakeable filter bags or cartridge filters.

If you already own a Handler polishing unit or larger dust collector we can supply a retrofit cartridge replacement filter system for your present unit.

### CARTRIDGE FILTRATION PROVIDES:

- ▶ Filtration of dust particles to 0.5 microns
- ▶ Easy removal for cleaning
- ▶ Enhanced air flow
- ▶ One wing nut removes cartridge for replacement
- ▶ Retrofit to existing handler polishing units and larger dust collectors
- ▶ Cartridges entrap plaster, stone, tripoli rouge and fine dust particles

Handler manufacturing- your source for polishing units and dust collectors
