DEFEND Desensitizer

Universal Desensitizing Agent

- Quick & Easy Application
- Universal Compatibility
- Antimicrobial Agent

DEFEND Desensitizer is a superior desensitizing agent which can be placed under dental cements or temporary, provisional or final restorative materials to reduce post-operative sensitivity. It can also be used for desensitization of amalgam restorations, placed either conventionally or bonded.

DEFEND Desensitizer contains HEMA to aid bonding primers to penetrate etched dentin. The HEMA base in DEFEND Desensitizer helps seal tubules, giving immediate relief from pain due to hypersensitivity.

APPLICATION IS QUICK AND EASY. DEFEND DESENSITIZER IS IDEAL FOR:

- Abrasion, cervical erosions and preps
- Applications to vital crown preparations prior to luting with cements
- At the "prep" appointment to desensitize during temporization

Most dentin resin bonding materials will benefit from DEFEND Desensitizer application. Its application reliably reduces post-op sensitivity by supporting the collagen framework for easier penetration of the adhesive, thus enhancing the dentin bond. DEFEND Desensitizer is an equivalent formula to market leader (for about 1/4 the cost per ml).

DD-1000
10ml Bottle
HEMA, Glutaraldehyde

Prophy Paste

Smooth, pliable and reduced-splatter formula contains fluoride and a unique blend of cleaning and polishing agents. Safely and effectively removes stains from tooth surfaces.

Pit & Fissure Sealant - Light Curing

Covers and seals pits and fissures in occlusal surfaces of posterior teeth to aid resistance to caries on those surfaces. Its very low viscosity resin system has a white opaque color to help identify retention at recall appointments. The direct delivery syringe system provides a quick and easy application method. The resin cures quickly to form a hard and retentive sealant.

Contains: 4 - 1GM Syringes LC Opaque Sealant, 1 - 2ml Syringe
Etchant Gel, 6 - Black/Blue Metal Pre-Bent Syringe Tips (12 total)
#PF-1000

Etch Gel - 38%

A 38% phosphoric acid gel for etching tooth enamel. Blue color is easily distinguishable from the tooth structure. Pre-bent tips allow for precise placement.

Contains: 2 - 2ml Syringes Etchant Gel,

Mydent Affiliations:

Mydent International is a proud supporter of OSAP, the Organization for Safety, Asepsis and Prevention. OSAP advocates for the safe and infection-free delivery of oral care. OSAP targets its message to dental and other healthcare professionals, academia, consultants, researchers and organizations that include non-governmental organizations (NGOs), government agencies, and even manufacturing and distribution companies -- it's a trusted resource for everyone who is responsible for safe dental care...because safety matters! Learn more at www.osap.org.

Mydent International is an accredited business with the Better Business Bureau (BBB) and has a prestigious A+ rating. Since 1985, we have committed ourselves to providing ethical business practices, honest advertising and safeguarding customer privacy.

Mydent International is proud to be a longtime member of the Dental Trade Alliance. The DTA is an association of companies that provide dental equipment, supplies, materials and services to dentists and other oral care professionals. Our member companies are distributors, dental laboratories & manufacturers located in the United States, Canada and Mexico. By providing the best equipment, materials and services to dentists and oral care professionals, we are partners in improving the oral health of everyone.

With Autism rates estimated as high as 1 in 91 children, Mydent feels compelled to take action. That is why a portion of the profits from every DEFEND product sold will go to Autism Speaks. Founded in 2005, Autism Speaks has quickly grown to become the nation's largest and most effective autism science and advocacy organization. They are dedicated to funding global biomedical research into the causes, prevention, treatments, and cure for autism. Mydent is proud to play a small part in helping them to change the future for all who struggle with autism spectrum disorders. We urge you to learn more at www.autismspeaks.org.

Mydent is also becoming an industry leader in environmentally responsible manufacturing and distribution practices. We are committed to a reduction of our carbon footprint, using earth-friendly materials and processes wherever possible. From recyclable and reduced packaging, high order practices, reducing emissions as well as "green" practices at our own headquarters, we are committed to a philosophy of being environmentally responsible...Today and Tomorrow.

Our Brand Promise

"To provide the healthcare professional with the highest quality infection control products, disposables, preventatives and impression material systems at affordable prices, supported by Superior Service and 100% Customer Satisfaction."
