

# RelyX™ Temporary Cements

An ideal solution for temporary restorations.

*Precise*

- Strong adhesion
- Quick and easy excess removal
- Optimal fit
- Easy provisional removal
- Available in both eugenol and non-eugenol formulas

## Strong adhesive, yet easy to remove.

RelyX™ Temp NE Temporary Cement and RelyX™ Temp E Temporary Cement, both from 3M ESPE, offer you the best of both worlds—strong adhesion and easy removal for provisional cementation. Both the eugenol and non-eugenol formulas save you time, because excess is quickly and easily removed.

# RelyX™ Temporary Cements

## Product Information

### Film Thickness Values

Source: 3M ESPE internal lab measurement according to ISO 3107

## An optimal fit.

RelyX™ Temporary Cements from 3M ESPE ensure optimal fit due to the extremely low film thickness of 3 µm.

## Ordering Information

RelyX temporary cements are available in both eugenol and non-eugenol formulas.

## Protemp™3 Garant™ Temporization Material

Protemp™3 Garant™ Temporization Material from 3M ESPE is a smart partner for RelyX Temp NE temporary cement and RelyX Temp E temporary cement. Use Protemp3 Garant temporization material to fabricate custom-made temporary restorations that offer superior strength, optimal fit, outstanding esthetics (5 shades), and biocompatibility. That means fewer broken temporary restorations and fewer unscheduled office visits. It's ideal for crowns, bridges, inlays/onlays and veneers.

Introductory Kit: 46943

### Protemp™3 Garant™ Temporization Material Introductory Kit

**46943**

#### Kit includes:

- 1 - 67 g Protemp3 Garant temporization material, A1
