

# Glass Ionomer Solutions

## Ketac™ Nano

Light-Curing Glass Ionomer Restorative

The world's first nano-ionomer is a paste/paste, esthetic glass ionomer for patients ranging from pediatric through geriatric.

**Working Time**

2 min. 30 sec.

**Light Cure**

20 sec.

- World's first nano-ionomer.
- Excellent esthetics – inspired by Filtek™ Supreme Plus Universal Restorative.
- Low wear and high initial polish.
- High fluoride release.
- Faster, easier dispensing with the innovative Quick Mix Capsule or Clicker™ Dispenser.
- Radiopaque.
- Available in 5 shades.

## Photac™ Fil Quick

Resin-Modified Glass Ionomer Restorative

When you're treating anxious patients and every second counts, this glass ionomer saves you time.

**Working Time**

2 min.

**Light Cure**

20 sec.  
40 sec. (shade: DB0)

- Dual cure provides light-cure control and the assurance of a complete cure.
- Excellent mechanical properties and its radiopaque.
- No cavity conditioning or protective varnish required – saves time.
- Aplicap™ capsule delivery for consistent handling characteristics and reproducible results.
- High fluoride release.
- Available in 8 shades.

## Ketac™ Molar Quick

Glass Ionomer Restorative

When you need a quick and versatile treatment for posterior restorations, this is a strong choice.

**Working Time**

1 min. 40 sec.

**Setting Time**

3 min. 30 sec.

- Bulk-fill convenience.
- Excellent mechanical properties for posterior teeth, including high compressive strength, minimal abrasion and excellent surface hardness.
- Excellent marginal seal.
- Packable.
- Aplicap capsule delivery for consistent handling characteristics and reproducible results.
- High fluoride release.
- Available in 5 shades.
