

Citrace® Hospital Disinfectant & Deodorizer

NEW: Effective on soft surfaces too!

Eliminates microorganisms from fabrics, hard surfaces and more

Citrace is formulated for broad-spectrum use on:

SOFT SURFACES

Kills 99.9% of Bacteria on Soft Surfaces in 30 Seconds

Citrace is EPA-registered to decontaminate soft surfaces in just 30 seconds. Simply spray* on high-touch soft surfaces in your facility, such as:

- Privacy curtains
- Upholstered furniture
- Cushions
- Lab coats†
- Linens†

Incorporate into your facility's daily cleaning protocols to help prevent the spread of microorganisms that can contribute to HAIs.

Prevents Mold and Mildew on Fabrics

Citrace inhibits the growth of mold and mildew on fabrics. Use on fabrics such as privacy curtains, drapes and upholstery. Repeat use regularly to prevent regrowth.

HARD SURFACES

Disinfects Hard Surfaces in 5 Minutes

Citrace kills 24 microorganisms on hard, nonporous surfaces in 5 minutes. Use on high-touch surfaces such as light switches, telephone receivers, remote controls and wheelchairs, as well as noncritical equipment like empty wastebaskets, supply carts and bathroom basins.

AIR

Eliminates Odors Instantly

Citrace destroys odors completely. While other products may just cover up odors, Citrace kills the bacteria that cause them. With a fresh citrus scent, it removes odors from bathrooms and patient areas, as well as fabrics, drapes and upholstered furniture.

*Use as directed.

†Allow to air dry before use.

Clorox Healthcare® Citrace® Hospital Disinfectant & Deodorizer

Soft Surfaces

Citrace is EPA-approved to eliminate *Enterobacter aerogenes* and *Staphylococcus aureus* — representing gram-negative and gram-positive bacteria — from soft surfaces in just 30 seconds.

Hard Surfaces

| Disinfecting efficacy against: | | Kill Time |
|--------------------------------|----------------------------------------------------------------------|-----------|
| Bacteria | <i>Acinetobacter baumannii</i> | 5 min |
| | <i>Enterobacter aerogenes</i> | 5 min |
| | Vancomycin-resistant <i>Enterococcus faecalis</i> (VRE) | 5 min |
| | Multidrug-resistant <i>Enterococcus faecium</i> | 5 min |
| | ESBL-producing <i>Escherichia coli</i> | 5 min |
| | <i>Klebsiella pneumoniae</i> | 5 min |
| | Multidrug-resistant <i>Klebsiella pneumoniae</i> | 5 min |
| | <i>Pseudomonas aeruginosa</i> | 5 min |
| | <i>Salmonella enterica</i> | 5 min |
| | <i>Staphylococcus aureus</i> | 5 min |
| | Methicillin-resistant <i>Staphylococcus aureus</i> (MRSA) | 5 min |
| | Methicillin-resistant <i>Staphylococcus aureus</i> (CA-MRSA USA 400) | 5 min |
| | Multidrug-resistant <i>Staphylococcus aureus</i> | 5 min |
| | Multidrug-resistant <i>Streptococcus pneumoniae</i> | 5 min |
| Viruses | Coxsackie Virus | 5 min |
| | Hepatitis A Virus (HAV) | 5 min |
| | Hepatitis B Virus (HBV) | 1 min |
| | Herpes Simplex Virus (HSV-1) | 5 min |
| | Human Immunodeficiency Virus Type 1 (HIV-1) | 1 min |
| | Influenza A Virus | 5 min |
| | Respiratory Syncytial Virus (RSV) | 5 min |
| | Rhinovirus | 5 min |
| | Rotavirus | 5 min |
| Fungi | <i>Trichophyton mentagrophytes</i> (Athlete's Foot Fungus) | 5 min |

TOTAL: 24 Claims

More Spray Time

Citrace offers longer spray times than alternatives.

| BRAND | SPRAYS/CAN | RESULTS |
|---------------------------------------|------------|----------------------------|
| Citrace®, 14 oz. | 550 | The most spray time |
| Professional Lysol® Brand III, 19 oz. | 375 | 32% less spray time |
| Professional Amphyll® II, 13 oz. | 273 | 50% less spray time |

PRODUCT INFORMATION

Citrace® Hospital Disinfectant & Deodorizer

Item No. 49100
12/14 oz.
EPA Reg. No. 67619-29

Meets CDC and OSHA Standards

Citrace meets CDC and OSHA bloodborne pathogen standards.

Designed for use in healthcare settings, including:

- Dental offices
- Doctor's offices
- Hospitals
- Long-term care facilities
- Nursing homes

Use in areas such as:

Patient and Exam Rooms

Waiting and Reception Areas

Work Stations

Use for decontaminating and deodorizing high-touch, soft surfaces:

- Curtains
- Chairs
- Couches
- Lab coats*
- Linens*
- Mouse pads
- Rugs
- Upholstery

Use for disinfecting high-touch, hard surfaces:

- Bed pans
- Carts
- Doorknobs
- Empty wastebaskets
- Light switches
- Remote controls
- Telephone receivers
- Walkers
- Wheelchairs

Usage tips:

- Use Citrace in adequately ventilated areas.
- For first time use on soft surfaces, spot test in a small, inconspicuous area.
- For best results on hard and soft surfaces, apply product in a smooth zigzag motion, spraying mist evenly across surface.

*Allow to air dry before use.
