

*Just evaluated!*

++++ rating ("Very Good")

THE DENTAL  
ADVISOR™

# Deldent Miniblaster

Fully autoclavable CLINICAL SANDBLASTER  
designed to enhance adhesive  
dentistry procedures.

- Produces microretentive surfaces to enhance bonding to all dental materials.
- Index-finger controlled valve gives maximum ergonomic control and requires less operating pressure.
- Designed for left- and right-handed operators.
- Described as "Ergonomic and lightweight" by a Dental Advisor evaluator.
- Unique ratchet system for simplified nozzle rotation and angulation; no need to waste time loosening and tightening collars.
- FDA approved for intra-oral use.
