

FLUORIDE VARNISH

Quala Varnish offers a topical application for in-office treatment. 5% Sodium Fluoride delivers a strong desensitizing action when applied to tooth surface. Quala Varnish can be used for cavity prevention and for treatment of hypersensitivity. Individual unit dose treatments are ready to use. Available in two popular flavors.

FEATURES

Clear (Mint) or
White (Caramel) Color

Smooth, thin formula

Unit dose

Contains Xylitol

Great tasting flavors

Sets rapidly in the
presence of saliva
