live healthy lives

BD E-Z Scrub™

Preoperative Surgical Scrub Brushes

For over three decades, the BD E-Z Scrub brand has been considered the “gold standard” in single-use disposable scrubs. BD E-Z Scrub products offer a wide range of efficacious antimicrobial formulations specifically designed to enhance performance while reducing irritation to the skin.

Our uncompromising pursuit of quality extends outside of the operating room too. BD E-Z Scrub is now manufactured with 100% renewable energy. Plus we've managed to cut 104 tons of resin from the process which means 104 fewer tons of medical waste entering landfills.

- Product line includes popular and efficacious antimicrobial formulations, including CHG, PCMX, and Povidone Iodine.
- Proprietary polyethylene soft bristles enhance mechanical action while reducing skin irritation.
- Soft sponge provides gentle cleaning on irritated areas or when firm mechanical action is not required.
- Ergonomic brush design allows greater user comfort and effectiveness, ultimately improving compliance.
- 100% of the electricity used to manufacture this product is offset with certified renewable energy.

BD - Meeting all your surgical scrub requirements.
