

Self Etch Bonding Agent

7th Generation Light Cured Adhesive

This self-etch adhesive formulated to bond to multiple substrates for both direct and indirect bonding procedures. It's a universal adhesive that has the bond strength and durability of a total-etch adhesive while eliminating the etching step.

Feature

Eliminates the etching step

7th Generation Formula

Direct and Indirect Bonding

Superior Bond Strength

The acid, primer and resin dissolve the smear layer without exposing the dentinal tubules.

Benefits

Saves you valuable time and money

Incorporates the latest in bonding technology

One bonding agent for use in both direct and indirect bonding procedures.

Ensures a long lasting restoration.

Minimizes post-operative sensitivity

Cost effective 5mL bottle!

ORDERING INFORMATION

1- 5ml bottle Cat. No. 900-00
