

DYNAMIC DISPOSABLES™

Introducing Palmero's pink disposable safety eyewear to support Breast Cancer Awareness!

Palmero Healthcare is proud to announce our support with the National Breast Cancer Foundation, Inc.®*. When you purchase our Dynamic Disposables pink safety eyewear, a portion of the proceeds will be donated to the foundation, a truly important cause.

Dynamic Disposables is a lightweight, disposable cost-effective alternative eye protection that reduces eye splash contamination incidents. They are a cost-effective alternative to traditional protective glasses and can be worn comfortably with a clinician's own prescription glasses.

Unlike traditional safety glasses that create pressure points on the nose and temples, our disposables wrap around the head for a secure, more comfortable fit. The reusable wraparound frame also includes a unique protective ridge that offers "top down" protection from splatter.

The lenses on our entire disposables line feature self-closing holes to prevent gaps and meet the OSHA and Center for Disease Control's Guidelines for protective eyewear. The Ultra-Clear™ Technology on/in each lens prevents fogging and the creation of static electricity while delivering glare-free clarity.

Economical Reusable frame reduces the cost per use

Comfortable Top Down Protection Superior design offers protective ridge that fits completely and comfortably against the forehead providing protection from the top down against splash and splatter contamination incidents

Designer Color Lenses Four great texture strip colors for fingerprint-free handling and quick assembly

Wraparound Frame Ergonomic frame wraps around the head for a more secure fit, designed to be worn with or without prescription/magnification glasses, bridge-free nose means more comfortable fit

Ultra-Clear™ Technology Anti-fog, anti-static, and optically clear

Snap-On Lenses Self-sealing lenses improve compliance with OSHA and CDC guidelines preventing exposure to blood borne pathogens

* The National Breast Cancer Foundation's mission is to help women now by providing assistance and inspiring hope to those affected by breast cancer through early detection, education, and support services. NBCF provides free mammograms and breast cancer education to women in all 50 states through a network of hospitals. NBCF was founded in 1991 and has Charity Navigator's highest 4-Star rating.

Protecting Clinicians, Patients, and the Practice

DYNAMIC DISPOSABLES™

Protection So Comfortable...You Might Forget You're Wearing It.

OSHA regulations stipulate that employers must provide eye protection for employees whenever they are exposed to potential biologic hazards. Our affordable, disposable protective eyewear gives clinicians a comfortable and convenient alternative to traditional safety glasses.

Find the Fit for Your Practice

Office Pack

- Comfortable. Convenient. Disposable.
- Includes latex free frame, lens, and cord.
- Save money with bulk ordering.
